1. COLLEGE PROMISE COALITION

Kelly Evans, Partner, Soundview Strategies and Bill Lyne, Professor, English and President, United Faculty Senate of Washington State presented information on the work of the College Promise Coalition (CPC). CPC brings together advocates for Washington state’s public and private four- and two- year colleges and universities, students, families, faculty, alumni, education supporters and leaders in business and labor. CPC advocates for affordable, accessible education and training opportunities for our students after they finish high school. Founded in 2011 in response to dramatic state cuts to higher education funding, the coalition works to ensure that access to an affordable, quality education remains an option for all Washingtonians.
Evans reported that the State Need Grant makes education possible for more than 69,000 Washingtonians who are low-income. But there is not enough funding to provide grants to an additional 20,000 students who qualified every year. Evan’s explained that the priority for the College Promise Coalition is to fully fund the State Need Grant. She explained that fully funding the State Need Grant will boost enrollment and completion, ensuring students have the opportunity to succeed regardless of income level or background. She added that college and career training are the keys to giving Washington students the opportunities they need to be successful, while also addressing the state’s skill and opportunity gaps.

Evans further explained the College Promise Coalition will engage higher education stakeholders in the work of increasing higher education attainment in Washington state. She noted that the coalition is working on identifying the programs and policies that will bring the state to its goal of 70% of adult higher education attainment by 2023. It will then create a broad and sustained advocacy program to advance that goal. She noted that the work will be divided into five categories: 1) Continued Coalition Building 2) Evidence, Analysis and Policy, and Program Creation 3) Communications 4) Public Mobilization 5) Decision Maker Engagement

2. STRATEGIC PLANNING

President Randhawa initiated the topic of strategic planning by thanking the strategic planning committee, the campus community and the trustees for their work on the strategic plan. Provost Carbajal summarized the work of the strategic planning committee since the February 2018 meeting of the Board of Trustees. He noted that the committee completed their charge by collaborating with the executive leadership team to create the “why” within the strategic plan.

Paqui Paredes Méndez, Professor, Modern and Classic Languages, read a statement on behalf of Brain Burton, Vice Provost for Academic Affairs, who was unable to be in attendance. The statement summarized the work of the committee throughout the strategic planning process. He noted the importance of the strategic plan and the trust that was placed on the committee to gather the voices of the campus community. Méndez agreed that the committee listened and channeled the voice of the greater campus community.

President Randhawa shared his observations from the feedback received from the committee and the members of the Board of Trustees. He noted that the document resonated with the committee and was much improved since the February work session of the Board of Trustees. Randhawa added that there had been concern from the Board of Trustees regarding the value proposition for Western, particularly to the external audience, and the targets of the metrics at this stage in the planning process. Randhawa added that the plan provides a good balance of the work of the committee, provides the context of moving forward, and comes with his endorsement. Randhawa emphasized that in his experience, the most effective strategic plans are living documents and that assessing the outcome after implementation is key to evaluating progress.

Trustee Sharpe thanked the committee for the depth of engagement and the commitment of the committee to thoroughly engage the campus community. Trustee Fujikado added that in her time as a trustee she has observed that Western consistently seeks input from as many sources as possible. She noted that it is not always easy, but as a trustee it is very reassuring to know that that amount of rigor, persistence and commitment and the ability to have difficult
conversation and adjust as things move forward. She emphasized that this has become the culture of Western. Trustee Franklin also thanked the committee for their work and dedication to the process. Franklin noted that the articulation of Western’s aspirations and values are clear and that the resources plan will become the scaffolding to create the path for the objectives in the strategic planning document. Trustee Overstreet expanded on the conversation by acknowledging that the legacy of this work will live on, that the document is aspirational as a living document and will become the foundation of future planning. Trustee Meyer noted that the committee clearly cares deeply for Western, the community and for each other and that he is proud to be a trustee in this critical moment. Trustee Lee indicated concerns regarding the strategic plan, but that there are elements of the plan that deserve recognition. She acknowledged and thanked the work of the committee and that the emphasis of inclusion and thoughtfulness shows in the current document. She added that it takes a lot courage for an institution to be willing to uncover it flaws and put them on paper to state that it wants to be better and that the aspiration and values provides a sense of pride in Western. Trustee Lee stated her concerns are centered on whether or not the document is a value statement or a strategy for the future. Trustee Truemper expressed her support for the document and noted that it did an exceptional job of addressing the different perspectives of the campus community. She added that everyone comes from different backgrounds, but the common interest everyone shares are our values and that is the spirit of Western and the strategic plan captures that essence.

President Randhawa concluded the conversation by noting that next steps in the process will be producing a business plan that coincides with the strategic plan adding that brand planning will be important to differentiate ourselves from other universities when addressing the legislature.

The meeting adjourned at 5:13 p.m.

Van Den Hul noted the complexity of tuition at a state supported institution which includes three different types of tuition; state supported, self-sustaining, and summer tuition. He noted that at Western there are twenty two different combination types of tuition based on student enrollment.

President Randhawa highlighted the philosophy and rational of setting tuition rates. He noted that setting the appropriate tuition framework is an important part of implementing the strategic plan. It is important to recognize that setting tuition is not just a revenue generation exercise. He added that tuition should be tied to the cost of education, the aspiration of the university, and to the universities image.

Earl Gibbons, Vice Provost for Extended Education provided an overview of the proposed summer session tuition. He noted that resident undergraduate tuition will remain the same and that there are modest increases in resident graduate tuition, non-resident graduate and undergraduate tuition. He added that there has been a change in procedure, based on input from the board at the February meeting that eliminates the $45 per credit fee that has been charged to non-resident, undergraduate and graduate students in the past. She added that the budget and rate proposal responsibly responds to inflationary pressures, maintains the core functions of Western’s quality residential program, and enables the Housing and Dining System to continue its comprehensive program of facility renewals and expected new residence construction. Huskey explained that with every year, a major influence for planning came from the standards and expectations outlined in the Principles for the Housing and Dining System. The recommended budget meets those standards and ensures the necessary reserve balances, planned major maintenance, debt service coverage and capital planning.

Leonard Jones, Director, University Residences, noted that when the Associated Students voted on the rate increases, they voted to support it by a margin of 5-0-1. He added that there were conversations held within the residences hall to give students an opportunity to provide feedback. The majority of the conversations lead to concerns that students have around safety in the residences halls. Jones introduced two student representatives, Amanda Thomas, President, National Residence Hall Honorary (NRHH) and Saige Wilde, Vice President for Finance, National Residence Hall Honorary. They shared their perspectives on living on campus and their support for the proposed rate increases. Carbajal added the Institute for Energy Studies requested funding for tenure-track faculty that will be split between the Institute for Energy Studies and a home department within the College of Science and Engineering, the College of Business and Economics and Huxley College for the Environment and will provide a Bachelor of Science degree within the program. He also mentioned the proposal that would increase the number of teachers in Washington State. Provost Carbajal noted that all the decisions packages align with the goals and themes of the strategic plan.

Melynda Huskey, Vice President for Enrollment and Student Services provided an overview of the Enhanced Career Services package that is a joint decision package that is being prepared by Academic Affairs and the only proposal being brought forward by Enrollment and Student Services. Huskey noted that 98% of students and their families identify enhanced career opportunities as a reason for attending Western. The package will provide a holistic approach that mirrors the general approach to care for students that attend Western. First year students will be encouraged to start thinking about what happens at the end of their time at Western and will be provided career service support throughout their time at Western. She said this will include partnering closely with the Alumni Association to enhance the division of mentorships, internships and job opportunities to Western students.

Richard Van Den Hul, Vice President for Business and Financial Affairs provided the board with an overview of the Capital Plan that will come before the board at the June meeting for approval. He noted that last fall the university started the capital planning process with an evaluation of existing and new major, intermediate, and minor capital projects for consideration in the 2019-2021 Capital Request (Request) and 2019-2029 Capital Plan (Plan). The evaluation included an emphasis on how they fit into the university’s strategic plan and mission. The projects considered were presented to the University Planning and Resource Council (UPRC) and audiocast to campus for review and feedback. Van Den Hul noted that the feedback provided by UPRC was used to prioritize the major and intermediate capital projects, which helped develop the draft Request and Plan.
Van Den Hul explained that with the operating budget, the Board is asked to provide comments and direction on the draft Request and Plan. The Board, UPRC, and the campus community’s comments and recommendations will be further analyzed as the vice presidents develop their recommendations to the president, who will then bring a final recommendation forward for Board approval. He added that the Office of Financial Management’s (OFM) deadline for capital requests is in August so the projects can be analyzed and rated as required by the Legislature. He said the Board’s final approval will be requested in June, which will allow time for university staff to develop and complete the project proposals for submission to OFM by their August deadline.

Background:
In August 2017, the Finance, Audit and Enterprise Risk Management (FAeRM) Committee began working on the ERM program at Western. In October, the ERM Planning Committee was formed and the ERM Planning Charter was drafted with the purpose of creating the ERM Framework. The ERM Planning Committee had the following high level objectives (the full list can be found in the ERM Planning Committee document):
• Recognize best practices in higher education
• Be simple and pragmatic
• Tie to institutional mission and strategic plan
• Engage Western’s Board of Trustees, Executives, and divisional/academic leadership in drafting the ERM Framework
• Leverage and align with existing and related processes, such as SCOT Assessments, Internal Audit surveys, compliance surveys, etc.

Over the last several months the ERM Committee has met with Executives and divisional / academic leadership to gather input for the ERM Framework. After review by the FAeRM Committee in April, the Framework is ready for Board discussion today.

1. Introduction

Enterprise Risk Management (ERM) is a structured, institution-wide approach to identifying, assessing, monitoring and responding to enterprise risks within the University’s risk tolerance, to provide reasonable assurance of success in fulfilling the University’s mission and strategic plan. ERM is integrated into the University’s existing governance, decision-making and planning and budgeting processes.

While traditional risk management focuses on institutional loss or damage and minimizing those risks with loss prevention and insurance measures, ERM focuses on risks at an enterprise level. ERM evaluates internal and external factors and influences that may cause uncertainty about whether an institution will achieve its objectives, and seeks to minimize those “risks” with a coordinated management response.

The ERM framework is a set of components that provides resources, terminology, structure and reporting for managing enterprise risks at the University. The framework aligns with International Organization for Standardization ISO 31000 Risk Management Principles and Guidelines.
2. Commitment

The University’s President, Board of Trustees, and Executive Leadership are committed to fostering an environment that will encourage risk-informed decision-making within the University’s culture and practices. The University’s Division Leadership will incorporate ERM into its governance, decision making, and planning and budgeting processes as set out in this framework.
3. Terms, Concepts and Principles

Terms and Concepts

Enterprise Risk Management (ERM)

(See: Appendix A – Risk Management Process Overview)

ERM is a structured, institution-wide approach to identifying, assessing, monitoring and responding to enterprise risks within the University’s risk tolerance, to provide reasonable assurance of success in fulfilling the University’s mission and strategic plan.
Enterprise Risk

(See: Appendix B – Examples of Higher Education Enterprise Risks)

Refers to the effect of uncertainty on the University’s ability to successfully accomplish its mission and strategic plan, including the ability to successfully accomplish division strategic objectives in support of the University’s objectives. Simply stated, they are the things that keep the University from achieving its objectives.

Universities face internal and external factors and influences that make it uncertain whether, when and the extent to which, they will achieve or exceed their objectives. The effect that this uncertainty has on a university’s objectives is enterprise risk.

Opportunity

Taking risks can afford opportunities. The University’s willingness to assume risk will help determine the opportunities it is willing to pursue in order to accomplish its mission and strategic plan. At the operational level, leadership must manage the risk of uncertainty to increase the likelihood of an opportunity’s success.

Risk Identification

Risk identification is the process of finding, recognizing and describing high-level, enterprise risks (internal and external factors or influences) that may impact the University’s ability to successfully accomplish its mission and strategic plan, or division or unit strategic objectives in support of the University’s objectives. The level of understanding of the risk at this point may be fairly low.

Risk Assessment

Risk assessment is an evaluative process that creates an understanding of the identified enterprise risk to determine where it falls within the University’s risk tolerance. It includes an analysis of the risk’s potential impact on the following areas:
- **Strategy:** How the risk may affect high-level goals aligned with and supporting the University’s mission and strategic plan, or division strategic objectives in support of the University’s objectives.

- **Operations:** How the risk may affect the effectiveness and efficiency of the University’s operational and management processes, including performance and accountability goals. Safety is an operational risk.

- **Finances:** How the risk may affect the University’s ability to effectively manage and control the potential loss of financial resources and physical assets.

- **Compliance:** How the risk may affect compliance with relevant external laws and regulations, and internally imposed policies and procedures.

- **Reputation:** How the risk may affect the assets that form the University’s image and reputation with internal and external stakeholders. Although reputation is one of the most important assets of the University, it may not be under the University’s control and only partially mitigated.

Risk assessment also includes a rating of the risks’ potential likelihood and impact on the University’s mission and strategic plan, and prioritization. See Risk Rating and Prioritization.
Risk Rating and Prioritization

(See: Appendix C – Risk Matrix and Heat Map)

Identified enterprise risks are rated using the risk matrix and heat map on a two-dimensional scale considering both the likelihood of the risk occurring and the impact on the University if the risk event should occur, which assists in the prioritization of risks as well. Using a five-point scale, each risk is rated considering the following and then prioritized based on the results:

- Risk Rating:

- **Risk Prioritization:**

Prioritization is based on the likelihood of the risk occurring and the impact on the University if the risk event should occur, and where that falls on the heat map.

- **Very High** – These are risks that the Board of Trustees and Executive Leadership need to know about. High-level, enterprise-wide risks whose likelihood and impact will seriously threaten 1) the University’s ability to successfully accomplish its mission and strategic plan, and/or 2) the University’s reputation. These risks will be monitored at the Board of Trustee and Executive Leadership level.
o **High** – High-level, enterprise-wide risks whose likelihood and impact may threaten 1) the University’s ability to successfully accomplish its mission and strategic plan, and/or 2) the University’s reputation. These risks will be monitored at either the Board of Trustee, Executive Leadership and/or Division Leadership level, depending on their scope and nature.

o **Medium** – These risks whose likelihood and impact will or may threaten a division’s functional areas, and its ability to successfully accomplish its strategic objectives. These risks may also include unit-level risks identified by multiple functional areas across a division. These risks are managed without formal monitoring by the Board of Directors or Executive Leadership, thus monitored at the division level.

o **Low** - Risks that have little or no impact on the University’s ability to successfully accomplish its mission and strategic plan. These risks are managed and monitored in the normal course of division business.

**Risk Tolerance**

Refers to the amount of risk, on a broad level, that the University is willing to take on in pursuit of its mission and strategic plan.

For example, a university may have a **low risk tolerance** related to threats to the health, safety and well-being of its community, damage or loss to its property, unreasonable potential for financial uncertainty and loss, non-compliance with internal and external compliance mandates, and compromising its reputation. While considering the foregoing, the same university may have a **higher risk tolerance** as it pursues activities, programs or services related to its mission and strategic plan.

**Risk Response**

Management’s coordination of human, operational, capital, technological, financial and other resources to ensure the selected action is effectively carried out to manage the enterprise risk
within the University’s risk tolerance. Elements of a risk response may be incorporated into strategic planning and budgeting processes.

Risk responses include:

- **Avoidance**: Exiting the activity, program or service that gives rise to the risk.

- **Mitigation**: Strategies and methods used to reduce the risk, including, but not limited to, control and management actions that reduce the risk’s impact on strategic objectives, operations, finances, compliance, and reputation.

- **Acceptance**: No response is taken to affect the risk, other than monitor it.

**Risk Profile**

*(See: Appendix C – Risk Matrix and Heat Map)*

A risk profile includes the spreadsheet summary, or risk matrix and heat map, and corresponding risk management plans, of the high-level, prioritized enterprise risks of the institution or division that could challenge the achievement of the University’s mission and strategic plan, or division strategic objectives in support of the University’s objectives. It is developed through use of the ERM process and assigns Risk Owners and Risk Monitors.

**Risk Management Plan**

*(See: Appendix D – Risk Management Plan)*

A written management plan may be created for **Very High** and **High** rated strategic risks that require increased attention for management and monitoring purposes.

**SCOT Assessment**

A tool commonly used by University stakeholders in a strategic planning setting that identifies and assesses the Strengths, Challenges, Opportunities and Threats (SCOT) of the institution or a division, college or department. Strengths and Challenges are internal factors while Opportunities and Threats are external.
Principles

Enterprise Risk Management (ISO 31000 amended for the University):

Creates and protects value.

ERM contributes to the demonstrable achievement of objectives and improvement of University performance in, for example, human health and safety, security, legal and regulatory compliance, public acceptance, environmental protection, product and service quality, project management, efficiency in operations, governance, and reputation.

Is an integral part of the University’s processes.

ERM is not a stand-alone activity that is separate from the main activities and processes of the University. ERM is part of the responsibilities of management and an integral part of all organizational processes, including strategic planning and all project and change management processes.

Is part of decision making.

ERM helps University decision makers make informed choices, prioritize actions, and distinguish among alternative courses of action.

Explicitly addresses uncertainty.

ERM explicitly takes account of uncertainty, the nature of that uncertainty, and how it can be addressed.

Is systematic, structured and timely.

A systematic, timely and structured approach to ERM by the University contributes to efficiency and consistent, comparable and reliable results.

Is based on the best available information.

The inputs to the process of managing risk are based on information sources such as historical data, experience, stakeholder feedback, observation, forecasts, and expert judgment.
Is tailored.

ERM is aligned with the University’s existing leadership and management processes.

Takes human and cultural factors into account.

ERM recognizes the capabilities, perceptions and intentions of external and internal influences that can facilitate or hinder achievement of the University’s objectives.

Is transparent, as appropriate, and inclusive.

Appropriate and timely involvement of stakeholders and, in particular, decision makers at all levels of the University, ensures that ERM remains relevant and up-to-date. Involvement also allows stakeholders to be properly represented and to have their views taken into account in determining risk criteria.

Is dynamic, iterative and responsive to change.

ERM continually senses and responds to change. As external and internal events occur, context and knowledge change, monitoring and review of risks take place, new risks emerge, some change, and others disappear.

Facilitates continual improvement of the organization.

The University should develop and implement strategies to improve its enterprise risk management maturity alongside all other aspects of institutional development.

Enterprise Risk Management (University's additions):

Is tied to strategy.

Enterprise risks are tied to the University’s mission and strategic plan.

Is part of governance.

ERM is part of, and not separate from, the University’s governance, decision-making and planning and budgeting processes. Leadership that is responsible for achieving strategic
objectives will find that risk is an unavoidable part of the decision-making process and that risk-taking should be informed and intentional.

**Is simple and pragmatic.**

Care should be taken not to overcomplicate the application of the ERM to the point of stifling the decision-making processes within the University. Only consider a manageable number of Very High and High rated enterprise risks that are tied to strategic objectives.

**Leverages existing processes.**

ERM should leverage existing enterprise risk identification and assessment processes, like Strengths, Challenges, Opportunities and Threats (SCOT) processes, planning and budgeting processes, and similar practices.
4. Roles, Responsibilities and Reporting

(See: Appendix E – ERM Flow Chart)

Board of Trustees

The Board of Trustees, as part of its normal governance activities, engages in candid conversations at the strategic level with members of Executive Leadership and the Finance, Audit and Enterprise Risk Management (FAeRM) Committee to fulfill their shared responsibility of ensuring the University’s enterprise risks are appropriately managed and documented as the University pursues its mission and strategic plan.

Finance, Audit and Enterprise Risk Management (FAeRM) Committee of the Board of Trustees

The FAeRM Committee assists the full Board in fulfilling its responsibility for oversight of the identification, assessment, monitoring and response to enterprise risks, in fulfillment of the University’s mission and strategic plan. The Committee provides strategic oversight of matters related to the integration of ERM into existing decision-making, strategic planning and budgeting processes. The Committee’s duties do not replace or duplicate established responsibilities and delegations for University leadership and management. (Source: Board of Trustees Rules of Operation – Appendix B, Board Finance, Audit and ERM Committee Charter) (Note: needs link to new charter when posted)

Executive Leadership

Executive Leadership includes the President, Provost and Vice Presidents. In consultation with the Board of Trustees and the Board’s FAeRM Committee, they will:

- Establish Institutional Tone:
  - Establish “tone from the top” and commit to implementing ERM at the University.
• **Prioritize Institutional Risks:**
  
  o Prioritize the institution risks within the risk profile, considering recommendations from the Institutional ERM Committee.
  
  o Select and recommend **Very High** or **High** rated enterprise risks for FAeRM Committee monitoring that are tied to the University’s mission and strategic plan.
  
  o Select **Very High** or **High** rated enterprise risks of special interest to Executive Leadership for their monitoring as well.

• **Provide Annual ERM Report:**
  
  o Develop and provide an ERM Report to the FAeRM Committee, with Institutional ERM Committee assistance, on an annual basis with interim updates at each regular meeting, or as requested.

• **Oversee and Monitor Risks:**
  
  o Oversee and monitor management strategies for enterprise risks within and across their respective areas.

**Institutional ERM Committee**

The Institutional ERM Committee is provided administrative support by Risk, Compliance and Policy Services (RCPS). The committee will:

• **Manage Framework:**
  
  o Maintain and monitor the performance of the ERM framework, recommend changes and updates to Executive Leadership, and then make approved revisions for its continued success.
  
  o Provide tools for Division Leadership use to assist with implementing the ERM framework in their areas, including risk matrix, heat map and related forms.
Review training programs for Executive and Division Leadership and Risk Owners.

Provide consultation and support to Division Leadership as those areas implement the ERM framework. However, the committee does not have substantive responsibility for managing enterprise risks within these areas.

Monitor and report on the institution’s ERM effort as a single-source for Executive Leadership on an ongoing basis.

- **Create and Maintain Institution Risk Profile:**
  - Collect and organize division risk profiles for creation and maintenance of the institution risk profile.
  - Prioritize the institution risk profile based on division *Very High* and *High* rated risks while considering the University’s mission and strategic plan, and deliver to Executive Leadership for further prioritization and oversight.
  - Reconcile division risk profiles with final institutional risk profile and return to respective Division Leadership, identifying those risks that will be monitored by the FAeRM Committee, Executive Leadership and/or Division Leadership.

- **Create Annual ERM Report:**
  - Develop the annual ERM Report on behalf of Executive Leadership for presentation to the FAeRM Committee, with interim updates at each regular meeting, or as requested.

Committee membership includes:

- Assistant Attorney General
- Assistant Director, Academic Budgeting and Administration, Provost’s Office
- Associate Vice President for Academic Affairs, Provost’s Office
- Associate Vice President, Business and Financial Affairs *(Co-Chair)*
- Compliance Manager and HIPAA Privacy Officer, Risk, Compliance and Policy Services
- Director, Environmental Health and Safety
- Director, Office of Communications and Marketing
- Director, Office of Internal Audit – *Ex Officio*
- Director, Risk, Compliance and Policy Services *(Co-Chair)*
- Faculty Member, University Planning and Resource Committee Representative
- Research Compliance Officer, Research and Sponsored Programs
- Rules (WAC) Coordinator, Risk, Compliance and Policy Services
- Senior Director and COO, WWU Foundation
- Special Assistant to the Vice President for Enrollment and Student Services
- University Policy Manager & Public Records Officer, Risk, Compliance and Policy Services
- Vice Provost for Information Technology/Chief Information Officer

**Division Leadership**

Division Leadership includes the Provost and Vice Presidents. Using each area’s existing leadership structures by adding ERM responsibilities to their normal management responsibilities, these leaders will:

- **Integrate ERM:**
  - Support the ERM framework.
  - Ensure that enterprise risks are identified, assessed, monitored and responded to within their division or areas of responsibility.
  - Oversee the integration of ERM into the division or area governance, decision-making, and planning and budgeting processes.
Engage all Risk Owners in the ERM process that may be directly impacted by it.

Create a “safe” and open environment for which candid discussions can occur during the ERM process.

Leverage the division’s existing and related enterprise risk processes, like SCOT Assessments.

Reinforce “tone from the top.” Promote risk management within the division culture and practices.

- **Create and Maintain Division Risk Profile:**
  
  Create and maintain a division risk profile and provide copies as requested to the Institutional ERM Committee.

  Ensure identified risks are tied to division strategic objectives, in support of the University’s mission and strategic plan.

  Prioritize risks based on the ERM framework’s risk rating methodology.

- **Assign Risk Ownership:**

  Establish clarity regarding ownership of and responsibility for identified risks and direct Risk Owners to develop and implement response plans and provide progress reports. Division Leadership may also be a Risk Owner.

  Risk ownership may be shared across division lines for enterprise-wide risks, depending on the scope and nature of the risk. Collaboration between divisions may be necessary.

  Ask Risk Owners to create a written risk management plan for **Very High** and **High** risks requiring increased attention for management and monitoring purposes, and provide copies as requested to the Institutional ERM Committee.
**Risk Owners**

Risk Owners may be Division Leadership, and/or those likely reporting to Division Leadership, including Deans, Vice Provosts, Associate and Assistant Vice Presidents and Directors, depending on the scope and nature of the risk. Functional aspects of risk ownership may be assigned to appropriate faculty or staff, but substantive responsibility for managing the risks rests with the Risk Owners. Risk Owners will:

- **Engage in ERM:**
  - Engage in the ERM process where enterprise risks are identified, assessed, responded to and monitored.
  - Integrate ERM into the Risk Owner’s governance, decision-making and planning and budgeting processes.
  - Engage and support appropriate faculty and staff in the ERM process who may be assigned functional aspects of risk ownership.
  - Promote risk management within the Risk Owner’s area.

- **Manage Enterprise Risks:**
  - Develop and implement risk response plans for identified enterprise risks and provide progress reports to Division Leadership.
  - Elevate **Very High** or **High** rated enterprise risks to the attention of Division Leadership.
  - Create a written risk management plan for **Very High** and **High** risks requiring increased attention for management and monitoring purposes, or as requested by Division Leadership.
• **Manage Other Risks**

  o In addition to enterprise risks, there are other risks that should be identified, assessed, monitored and responded to as part of the Risk Owner’s normal course of responsibility. The ERM framework can be used at the “local” level for such purposes as well. See Appendix A – Risk Management Process Overview.

• **Seek Consultation**

  o Proactively engage University resources in consultation (e.g. Environmental Health and Safety, Public Safety, Risk Management, Compliance Management, Ethics Officer, University Communications, Human Resources, Assistant Attorney General, Internal Audit, Policy and Rules Development, Information Technology, etc.) to assist with the risk management effort. University resources have no substantive responsibility for managing risks within the Risk Owner’s area, but serve as consultants and advisors.

**Internal Audit**

Internal Audit provides an ongoing independent assurance function which evaluates the University’s activities to assist the Board of Trustees, the Board’s Finance, Audit and Enterprise Risk Management Committee, and Executive Leadership in the discharge of their oversight and management responsibilities, which includes the ERM effort.

With safeguards described in the Institute of Internal Auditors (IIA) position paper titled [The Role of Internal Auditing in Enterprise-wide Risk Management](#), Internal Audit will support the ERM process by: identifying and evaluating enterprise risks; providing advice regarding management’s responses to those risks (but not make decisions about or implement those responses); and evaluating the ERM process itself from the perspective of Internal Audit.
5. Implementation

(See: Appendix F – ERM Implementation Plan Timeline)

The key elements of implementing the ERM framework include the following:

Implementation of the Institutional Enterprise Risk Management (ERM) Plan

- **Training**
  - Risk, Compliance and Policy Services (RCPS) will develop an online Canvas training tool and a SharePoint site, and in-person training for executive, division and college leadership.

- **Risk Owners - College and Divisional Unit Risk Profiles and Management Plans**
  - Each college and divisional unit will create and maintain a risk profile that summarizes and prioritizes risks that may impact their respective area. Written risk management plans will be created for Very High and High rated strategic risks that require increased attention for management and monitoring purposes.

- **Division Leadership - Provost and Vice Presidents’ Risk Profiles and Management Plans**
  - The Provost and Vice Presidents will compile their respective college and divisional unit risk profiles into division risk profiles that summarize and prioritize risks that may impact their division. Written risk management plans created by college and divisional units are evaluated for relevance, accuracy and completeness.

- **Institutional ERM Committee**
  - The Institutional ERM Committee compiles division risk profiles into a draft institutional risk profile, including appropriate written risk management plans,
and submits to Executive Leadership. The Institutional ERM Committee drafts a preliminary ERM Report.

- **Executive Leadership – Institution Risk Profile and Management Plans**
  - The Executive Leadership reviews and prioritizes the institutional risk profile and management plans, and approves the ERM Report.

- **ERM Report**
  - The ERM Report is presented by Executive Leadership to the Board of Trustees Finance, Audit and Enterprise Risk Management (FAeRM) Committee.

**Integration of ERM into Existing Management Processes**

This involves the integration of ERM response plans by Division Leadership and Risk Owners into existing governance, decision-making, and planning/budgeting processes, and vice versa.

**Application of ERM to Emerging, Strategic Initiatives**

This involves the application of ERM by Division Leadership and Risk Owners as part of assessing and implementing new, strategic initiatives, thereby improving their chance for success.

**Monitoring**

The intent of monitoring is to track the performance of the ERM framework itself and the management of enterprise risks by the institution that have been identified within the ERM process.

- **Performance of ERM Framework**
  - The performance of the ERM framework is monitored by the Institutional ERM Committee. The ERM framework will be continuously improved through feedback from University stakeholders in an effort to ensure that the University’s enterprise risk management approach is helpful, valuable, and effective.
ERM Framework Use by Management

The use of the ERM framework will be evaluated based on the following:

- Enterprise risks have been reviewed at least annually by divisions.

- Actionable response plans have been developed and successfully implemented by Risk Owners for each enterprise risk identified under their ERM processes.

- Downward movement on the enterprise risk rating scale and heat map based on the ongoing implementation of risk response plans.

- Documentation of the review of enterprise risks within routine and strategic University management functions.

- ERM framework training established and made available for University stakeholders.
Appendix A: Risk Management Process Overview

INTRODUCTION

The risk management process can be applied to high-level, enterprise risks that may impact the University's ability to successfully accomplish its mission and strategic plan, and other risks that may impact division or unit strategic objectives that support the University's objectives. The process can be an integral part of an area’s management, embedded in the area’s culture and practices, and tailored and scaled to the area’s activities. The process comprises the activities described below:

PROCESS

Step 1: Establish the Context

Context are the strategic objectives and emerging, strategic initiatives of an area, or those parts of an area where the risk management process is being applied.

Step 2: Risk Identification

Risk identification is the process of finding, recognizing and describing high-level, enterprise risks (internal and external factors or influences) that may impact the University’s ability to successfully accomplish its mission and strategic plan, or division or unit strategic objectives in support of the University's objectives. The level of understanding of the risk at this point may be fairly low. They can also be viewed as things that create uncertainty about the area’s ability to achieve its strategic objectives or do it effectively.

Step 3: Risk Assessment

Risk assessment is an evaluative activity that creates an understanding of the identified risk to determine where it falls within an area’s risk tolerance (usually aligned with the University’s risk tolerance). It includes an analysis of the risk’s potential impact on strategy, operations, finances, compliance and reputation. It leads to decisions on whether a risk needs a response, and on the most appropriate response strategies and methods.
Step 4: Risk Rating

Risks are rated using a risk matrix and heat map (see Appendix C – Risk Matrix and Heat Map) on a two-dimensional scale considering both the likelihood of the risk occurring and the impact on an area if the risk event should occur, which assists in the prioritization of risks as well.

Step 5: Risk Response

Risk response will be one of the following - avoidance, mitigation or acceptance. Risks that are mitigated are controlled or managed to keep them within an area’s risk tolerance, which will likely necessitate the coordination of human, operational, capital, technological, financial and other resources for accomplishment. Elements of a risk response may be incorporated into strategic planning and budgeting processes.

Ongoing: Monitor and Review

An area’s monitoring and review processes should encompass all aspects of the risk management process for the purposes of ensuring the effectiveness of risk response plans, learning lessons from successes and failures, detecting changes in the original context, and identifying emerging risks.

Ongoing: Communicate and Consult

Communication and consultation with external and internal stakeholders and resources should take place during all stages of the risk management process. To assist in the process, it is helpful to engage internal resources for consultation, such as:

- Environmental Health and Safety
- Public Safety
- Risk Management
- Compliance Management
- Ethics Officer
- University Communications
- Human Resources
- Assistant Attorney General
- Internal Audit
- Policy and Rules Development
- Information Technology
Appendix B: Examples of Higher Education Enterprise Risks

- Enrollment management – growth, retention, and contraction
- Information technology (IT) infrastructure, security and support
- Disaster or emergency response and business continuity
- Preparing and responding to a potential active shooter
- Age and condition of facilities and physical plant infrastructure
- Faculty and staff conflict of interest, misconduct and regulatory non-compliance
- Free speech and expression (allowing controversial speakers or groups on campus, while providing safety and security)
- Tuition affordability and perception of "value" by students, parents and other stakeholders
- Title IX regulatory compliance
- Institutional liability, risk and cost related to mismanagement of third-party contracts
- Student high-risk behaviors and mental health
- Researcher compliance and grant contract administration
- Diversity and inclusion of faculty, staff and students
- Managing the risk of the institution's increasing entrepreneurial initiatives
- Protection of minors while on campus for youth programs, sport camps and other activities
- Health and safety of faculty, staff and students while working, studying and volunteering abroad
- Employment practices claims and lawsuits relating to wrongful termination, discrimination, retaliation and equal opportunity
- Compliance with privacy protection laws, including FERPA, HIPAA, GDPR, etc.
- Academic freedom for faculty to teach or communicate ideas or facts, however controversial, without institutional retaliation or job loss.
- Donor relations and endowment growth
- Recruitment and retention of faculty and staff
- Media relations, including student publications
- Institutional space limitations – Inventory and utilization

What is Enterprise Risk Management (ERM)?

ERM is a structured, institution-wide approach to identifying, assessing, monitoring, and responding to risks to provide reasonable assurance of success in fulfilling the University’s mission and strategic plan.
History

National
• ERM evolved from high profile business failures, scandals and fraud around the turn of the last century

State
• Executive Order 01-05, Governor Locke directed the State to adopt risk management best practices - ERM encouraged
• Executive Order 16-06, Governor Inslee affirmed the State’s commitment to ERM

Higher Ed
• Recognized as a best practice and encouraged by AGB, NACUBO and URMIA
Why ERM is Important

• Encourages the proactive management of risk

• Increases the likelihood of achieving University objectives

• Improves communication, reporting and governance across the University
Western’s ERM Framework

Based on the ISO 31000 ERM model, which defines essential elements, offers a common language, and provides clear direction and guidance for ERM. This model is encouraged by the State of Washington.

• Commitment
• Terms, Concepts and Principles
• Roles, Responsibilities and Reporting
• Implementation
• Tools
Commitment

• Establishes “Tone from the top”

• ERM requires a commitment from the University’s Board of Trustees, President, and Executive Leadership to foster an environment that will encourage risk-informed decision-making within the University’s culture and practices
Terms, Concepts and Principles

• Establishes a common language regarding ERM in order to improve communication and understanding across the University

• Definitions of key terms and concepts

• Principles that should be followed
Roles, Responsibilities and Reporting

- Roles and responsibilities are established for:
  - Board of Trustees
  - Board’s Finance, Audit and Enterprise Risk Management (FAeRM) Committee
  - Executive Leadership
  - Institutional ERM Committee
  - Division Leadership
  - Risk Owners

Enterprise Risk Management Planning Committee

CHARTER

Background
Enterprise Risk Management (ERM) is a structured, institution-wide approach to identifying, assessing, responding to and monitoring enterprise risks - strategic, reputational, operational, compliance and financial risks – within the University’s risk tolerance, to provide reasonable assurance of success in fulfilling the University’s mission and strategic plan.

Purpose
The purpose of the ERM Planning Committee (Committee) is to draft ERM framework for the University, to integrate into existing strategic and operational decision-making processes and meet the objectives below.

Paul Mueller, Director of Risk, Compliance and Policy Services (Committee Chair) performed much of the research in identifying a practical ERM framework. ISO 31000, a recognized international risk management standard adopted by many higher education institutions, is scalable and tailorable and may be a good fit for the University. This ERM framework will be presented to the Committee for consideration.

The Committee will conclude when the ERM framework is complete.

Convening Authority and Reporting
The Committee is appointed by and reports to the Vice President for Business and Financial Affairs.

Objectives
The ERM framework developed by the Committee will satisfy the following objectives:

1. Recognize best practices in higher education
2. Be simple and pragmatic
3. Tie to institutional mission and strategic plan
4. Establish a clear definition of “enterprise risk”
5. Engage Western’s Board of Trustees and executive, divisional and academic leadership in the drafting of the framework
6. Define clear roles and responsibilities for Board of Trustees, University leadership, committees and others who serve within the ERM framework
7. Establish clarity regarding ownership of and responsibility for enterprise risks
8. Leverage and align with existing and related processes, like SCOT Assessments, Internal Audit Surveys, Compliance Surveys, etc.
9. Integrate enterprise risk identification, assessment, response and monitoring into existing decision-making, strategic planning and budgeting processes

Approved 10-12-2017 by Vice President Richard Van Den Hul, Business & Financial Affairs

THE BOARD AND GOVERNANCE

1.1 Board Authority Established by Law. The authority to govern Western Washington University is vested by law in the Board of Trustees of the University, referred to from this point forward as the “Board.” (See Appendix A for statutory references.)

1.2 Governance Development. The Board believes that the educational interests of the University are furthered by encouraging an environment of collegiality. Therefore, it has established a system of shared governance in which the various elements of the institution are encouraged to participate. Without limiting its duties or authority, the Board directs its attention to matters of general policy relating to the institution’s mission, educational program, operation, and Strategic Plan.

1.3 Policy Development. The Board delegates responsibility for the development and administration of policies and management of the institution to the President, or his or her designees, including the appropriate unit or units of internal governance.

1.4 Channel of Authority. The channel of authority from the Board to the faculty, administrative officers, staff, and students shall be through the President.

   (a) University Community Responsible to the President. All faculty, administrative officers, staff, and students must, through appropriate channels, be responsible to the President, and through the President, to the Board, unless otherwise specifically directed by the Board.

   (b) Recommendations for the Board Transmitted to the President. When faculty, administrative officers, staff, and students bring forward recommended changes to policies, programs, and other matters that require Board consideration, such recommendations should be transmitted to the President and by the President to the Board with his or her recommendation.

   (c) President to Engage Discussion. If the President does not support the recommendations as forwarded, the President will first send it back to the recommending group with a statement of concerns and engage in discussions with the group regarding the proposal before forwarding it to the Board for consideration.

   (d) President’s Recommendation and Background Materials to be Provided to the Board. Background information, perspectives of constituents, and the recommendation of the President will be provided to the Board.

   (e) Presidential Oversight of Governance Groups. The Board has the responsibility for oversight of the President, but delegates authority to the President for oversight of faculty, staff, students, or others engaged in communications or by contract with the University.

   (f) Communication to the Board by Governance Groups. The presidents of the Faculty Senate and Associated Students may, in exceptional circumstances,
communicate directly to the Board collectively through written communication. Copies of such communication will be provided to the President. The presidents of those groups shall serve as the representatives of their respective elected bodies at all Board meetings where they are welcome to address the Board directly.

1.5 **Attorney General of Washington Provides Legal Counsel.** The legal advisor to the Board is the Attorney General of Washington. The assistant attorneys general assigned by the Attorney General to represent the University shall provide counsel to the University to and through the Board. The assistant attorneys general provide legal counsel to the various divisions of the University through the President.

### SECTION 2

**AUTHORITY, POWERS, AND DUTIES OF THE BOARD**

2.1 **Title 28B RCW Establishes Board Authority.** The Board derives its authority from the laws of the state of Washington. The Board operates under the provisions of Title 28B and other portions of the Revised Code of Washington (RCW). The powers and duties of the Board include those specifically set forth in Title 28B and all other powers and duties which are necessary or appropriate to carry out the Board’s responsibilities and obligations. (See Appendix A.)

2.2 **Chair Spokesperson for the Board.** The Chair or his or her designee is the spokesperson for the Board. Individual Board members are encouraged to consult regularly with both the President and the Board Chair on matters of interest. Unless otherwise authorized by the Board, individual Trustees exercise no authority over the institution nor may they make or enter into contracts on behalf of the Board or University.

2.3 **Authority Reserved by the Board.** The Board reserves unto itself the following authority (unless specifically delegated in particular instances by definite resolution or motion duly passed by the Board), which it exercises subject to the conditions and limitations of law:

(a) **To Employ the President.** To employ the President under such terms and conditions as may be negotiated from time to time through a written contract, including, but not limited to, compensation, housing requirements, benefits, and tenure to an academic unit. The Board shall be provided copies of all Interlocal Agreements entered by the University that do not meet the $50,000 threshold. (See Appendix A.)

(l) **To Purchase, Acquire, or Lease Real Estate.** To authorize the purchase, acquisition, or long-term lease (for more than two years) of real property not located within the boundaries of the campus as described by the Institutional Master Plan for Western Washington University, subject to other approvals that may be required. The Board may authorize the purchase of properties not identified in the Institutional Master Plan if it adopts by resolution the rationale for such purchase.

(m) **To Select Certain Architects and Engineers.** To authorize the selection of professional, architectural, engineering, and related services for the design of public works in instances where the fee for such services will exceed $300,000.00, or where competitive proposals were not solicited and considered, unless other procedures approved by the Board were followed.

---

\(^1\) RCW 28B.35.205 states, in part: The Board of Trustees, upon recommendation of the faculty, may also confer honorary bachelor's, master's, or doctorate level degrees upon persons in recognition of their learning or devotion to education, literature, art, or science. (t) **To Exercise Authority Reserved to the Board.** To exercise all authority expressly reserved to the Board by recorded resolution or motion, or in rules which have been or are hereafter adopted or amended by the Board pursuant to the provisions of the Administrative Procedure Act, Chapter 34.05 RCW. (See Appendix A.)

(u) **To Retain All Authority Hereafter Delegated to the Board.** To retain all authority which may be hereafter delegated to the Board by the Legislature of the state of Washington, unless such authority is expressly delegated to the President or President’s designee in these rules or by duly adopted resolution.

2.4 **Conflict of Interest Standards**

The following standards apply to each member of the Board of Trustees of Western Washington University and are intended to serve as guidance for everyone serving on the Board.

(a) **Fiduciary Responsibilities.** Members of the Board serve the public trust and have an obligation to fulfill their responsibilities in a manner consistent with this fact. All decisions are to be made solely on the basis of a desire to promote the best interests of the institution and the public good. The University’s integrity must be considered and advanced at all times.

Trustees are often involved in the affairs of other institutions, businesses, and organizations. An effective Board may not always consist of individuals entirely free from perceived, potential, or real conflicts of interest. Although most such conflicts are and will be deemed to be inconsequential, it is every Trustee’s responsibility to ensure that the Board is made aware of situations at the University that involve personal, familial, or business relationships.
(b) **Affirmation and Disclosure.** The Board requires each Trustee to annually affirm that the following standards must be adhered to:

1. **Board disclosure of personal, familial, or business relationships.** Each Trustee will disclose to the Board any personal, familial, or business relationship that reasonably could give rise to a perceived, potential, or real conflict of interest, as any such may arise.

   i. **Public disclosure.** Trustees are required by RCW 42.17A.700 to file annual statements with the Public Disclosure Commission relating to business interests and receipt of gifts.

   ii. **Completion of disclosure form.** Trustees must annually complete the disclosure form provided by the University. The completed forms are retained in the Office of the President.

2. **Disclosure of potential or real conflict of interest.** In the event there comes before the Board a matter for consideration or decision that raises a potential or real conflict of interest for any Trustee, the Trustee shall disclose to the Chair of the Board the existence of a potential or real conflict of interest as soon as possible.

3. **Recording of disclosure in minutes.** The disclosure shall be recorded in the minutes of the meeting where a vote by the Board will occur on the matter.

4. **Seeking counsel regarding disclosure.** In the event a Trustee is uncertain as to the need to make disclosure in a particular instance, the Trustee should seek counsel from the Chair and/or the President of the University. They, in turn, may elect to consult with legal counsel. A Trustee who is aware of potential or real conflict of interest with respect to any such matter shall not vote or participate in discussion in connection with the matter. That Trustee’s presence may not be counted in determining whether there exists a quorum for purposes of validating the vote on the matter.

(c) **Situations Which Constitute Conflicts of Interest.** While it is difficult to list all circumstances which create conflicts of interest for individual Trustees, the law defines some situations as prohibited actions. These include:

1. **Assisting another person, whether or not for compensation, in any transaction with the University.** Example: Trustees cannot affect the admission of individual applicants for student status. Trustees might well be involved in admission standards through delegation, but do not make decisions on individual applications.

2. **Use of University resources for personal benefit.** Example: Trustees cannot have office space to conduct their personal business on campus.

3. **Use of official authority for personal gain.** Example: Trustees cannot vote to extend a contract to a business in which they have a significant financial interest.
4. **Receipt of gifts, gratuities, and favors.** Example: Trustees cannot accept money from businesses with which the University has contracts as an inducement from the business to execute/extend a contract; and if gifts have been received during a reporting period, the Trustee must report them to the Public Disclosure Commission.

SECTION 3

APPOINTMENT

3.1 **Appointment by the Governor.** The Board is composed of seven members appointed by the Governor of the state of Washington with the consent of the Senate for terms of six years, and one additional university student member, who is appointed annually by the Governor for a one-year term (RCW 28B.35.100).

3.2 **Oath to Discharge Duties.** Each member of the Board is required to take an oath to discharge faithfully, impartially, honestly, and to the best of his or her abilities, the duties of a Trustee (RCW 28B.10.520). (See Appendix A.)

3.3 **Selection of Student Trustee.** The Governor shall select the student member from a list of candidates, of at least three and not more than five, submitted by the governing body of the Associated Students.

3.4 **Term and Qualification of Student Trustee.** The student member will hold his or her office for a term of one year from the first day of July and until his or her successor is appointed and qualified. The student member shall be a full-time student in good standing at the University at the time of appointment.

3.5 **Student Trustee Shall Excuse Himself or Herself.** A student trustee shall excuse himself or herself from participation or voting on matters relating to the hiring, discipline, or tenure of faculty members and personnel as required by RCW 28B.35.100 (4), or as it may be amended from time to time. (See Appendix A.)

SECTION 4

RESIGNATION AND REMOVAL

4.1 **Resignation.** A Board member may resign from the Board at any time during his or her term by notification submitted to the Governor.

---

2 Normally, a Trustee will serve no more than two full six year terms. Normally, a Trustee appointed to fill the remainder of a former Trustee’s term shall be eligible for two full terms if the partial term was not longer than three years.
4.2 **Removal Only for Misconduct.** No member of the Board may be removed during the term of office for which appointed, except for misconduct or malfeasance in office (RCW 28B.10.500). (See Appendix A.)

**SECTION 5**

**OFFICERS AND COMMITTEES**

5.1 **Officers and Terms.** The Board shall elect a Chair, Vice Chair, and Secretary for two-year terms, as the last order of business at the June meeting of the Board every second year. In the event of an interim vacancy in any office, a successor shall be elected to fill the unexpired term.

5.2 **Board Chair.** The Chair of the Board shall preside at meetings of the Board and the Chair shall have the customary powers and duties associated with such office (subject to the Board’s direction). The Chair shall have full right of discussion and vote. If the Chair is absent or otherwise unable to preside over a meeting of the Board, the Vice Chair shall preside. In the event of the absence of both the Chair and Vice Chair for any meeting of the Board, the Secretary shall then preside. In the absence of all officers, the Board shall designate a Chair for the meeting.

5.3 **Board Secretary.** The Secretary of the Board, in addition to other duties specifically imposed by the Board, shall be the second signatory (the Chair being the first) for all documents requiring two signatures from the Board. The Board may authorize other members of the Board to sign documents in the absence of either the Chair or the Secretary. The Secretary shall be responsible for reviewing draft minutes of the Board meetings, which are prepared by staff assigned to the Board.

5.4 **Committees May be Established.** The Board or its Chair may establish such standing or special committees as are deemed appropriate. Committees shall advise the Board and the President of the University on matters referred to such committees for consideration.

5.5 **Notification of Trustee Violation.** In the event that a Trustee is acting in violation of Section 2.4, the President shall advise the Chair of the activity. The Chair shall direct the Trustee to cease the inappropriate activity. If the Chair is acting in violation, the Vice Chair shall be advised of the activity and shall direct the Chair to cease the inappropriate activity.

5.6 **Meetings of Board Committees.** Board committee meetings may be held before regular or special meetings, or at such time and such place as a committee chair may direct from time to time. All committee meetings must be held in conformance with the laws of the state of Washington governing such meetings.

(a) **Executive and Governance Committee.** The Executive and Governance Committee of the Board ensures the integrity of the Board and enhances Board performance, while facilitating presidential evaluation and compensation.
(b) **Finance, Audit, and Enterprise Risk Management Committee.** The Finance, Audit, and Enterprise Risk Management (ERM) Committee of the Board assists the Board in fulfilling its responsibility for oversight of the integrity of the University’s financial operations, physical plant, and financial health; the quality and integrity of the accounting, auditing, and reporting practices of the University, with particular focus on effective internal controls, advising the University on business and financial risk as identified in any audit process, and compliance with significant applicable legal, ethical, and regulatory requirements; and the identification, assessment, monitoring and response to enterprise risks, in fulfillment of the University’s mission and strategic plan.

(c) **Student Success Committee.** The Student Success Committee of the Board assists the Board in an advisory capacity to advance inclusive success, increase the University’s impact in Washington and beyond, and enhance the quality of Western’s education programs and student learning experiences and its research and creative work. Directed by the Board of Trustees, the purpose of the Student Success Committee is to develop an understanding of Western’s academic affairs and student affairs, with the intention of providing strategic oversight to advance student success at the University.

(See Appendix B – Committee Charters)

**SECTION 6**

**UNIVERSITY SEAL**

6.1 **Seal Design Approval.** The design of the seal of Western Washington University shall be approved by the Board.

6.2 **University Seal is the Official Legal Seal of the University.** The University Seal is the legal seal of the University and is to be used only for diplomas, transcripts, official certificates, and other documents as designated by the President’s Office. As the official legal seal of the institution, its usage must be constrained to official applications.

**SECTION 7**

**MEETINGS OF THE BOARD**

7.1 **Regular Meetings.** Regular meetings of the Board shall be held pursuant to schedules and at locations published annually in the Washington State Register. Any regular meeting of the board may be rescheduled by publishing notice of the changed date and/or location in the Washington State Register at least twenty days in advance of the rescheduled meeting date. If twenty days advance notice of a rescheduled meeting is not given, the meeting is conducted as a special meeting under RCW RCW 42.30.080 and Section 7.3. (WAC 516-04-010). (See Appendix A.)

7.2 **Annual Schedule of Regular Meetings.** The schedule of meetings for a two year period shall be determined each even year at the regular April meeting of the Board.
7.3 **Special Meetings.** The chair of the Board or a majority of its sitting members may call special meetings of the Board (RCW 42.30.080). (See Appendix A.)

7.4 **Quorum.** Five members of the Board constitute a quorum for the transaction of business by the Board. Provided, however, that action by the Board shall require the affirmative vote of at least four members. Provided, where only a quorum of five is present, and the student trustee has excused himself or herself from participation or voting when the matter relates to the hiring, discipline, or tenure of faculty members and personnel, action shall require the affirmative vote of at least three members. Members of the Board may appear by telephone or other telecommunications or video conferencing technology. Op. Att’y Gen. 4 (2017).

7.5 **Public Meetings.** All regular and special meetings at which a quorum of the Board is present shall be open to the public, with the exception of those portions of regular or special meetings specifically declared to be “executive sessions” as allowed by law, or to be otherwise exempt from the provisions of Chapter 42.30 RCW. (See Appendix A.)

7.6 **Notice of Agenda.** The President, with concurrence of the Chair of the Board, prepares a written agenda for each regular and special meeting. Copies of the agenda and supporting materials for a meeting are provided to the President and members of the Board and made available to the public approximately one week in advance of the announced meeting. Except as otherwise provided by law, the Chair, President, or any Board member may add additional items to the agenda for regular meetings without notice to the members of the Board or the public. However, the topics at special meetings are restricted to those for which advance notice has been given. Public notice of a special meeting must be made 24 hours in advance of the meeting.

7.7 **Executive Sessions.** During any regular or special meeting of the Board, the Board may hold an executive session to discuss matters as permitted by applicable laws of the state of Washington.

7.8 **President as Representative of the University.** The President of the University speaks for the University at meetings of the Board.

7.9 **Faculty and Student Representatives.** Because of the unique and integral relationship that the faculty and students bear to the mission of the University, the President of the Associated Students and the President of the Faculty Senate are issued a standing invitation to participate in all of the Board’s public meetings.

7.10 **Presiding Officer of the Board.** The presiding officer of the Board shall have the right to maintain order, recognize speakers, and to limit the length of time used by a speaker for the discussion of any subject at meetings of the Board; provided, however, that any restriction on debate to be imposed upon members of the Board shall be announced in advance, uniformly applied, and subject to nullification by majority vote.

7.11 **Order of Business.** The agenda for regular meetings of the Board should include the following:

- Consent items;
- Public comment period;
• Major policy matters and decision options;
• Special reports; and
• Other items or announcements from Trustees, committees, the University President, Faculty Senate President, or Associated Students President.

7.12 **Appearance Before the Board.** The Chair of the Board will entertain and grant requests of persons to appear at meetings of and speak to the Board as the Chair may determine. In connection with public comment periods at regular meetings, the Chair of the Board:
• may ask that prospective speakers sign in prior to speaking;
• may set time limits for speakers;
• may limit the time period for public comment; and
• may halt comments on topics about which the Board is advised that it should not receive comment, such as pending quasi-judicial matters.

7.13 **Rules of Procedure.** Robert’s Rules of Order, latest revised edition, govern the rules of procedure of all meetings of the Board, except where such rules of order are superseded by the Board’s Rules of Operations or applicable statutes or regulations.

**SECTION 8**

Western Washington University Board of Trustees
Board of Trustees Committee Charters

The Board of Trustees Committee Charters enhance the purpose and advance the work of the Board. The Charters allow the board to focus its work, which largely occurs in its committees, on discussions of key institutional issues and responsibilities that align with the Board's governance roles.

There are two standing committees of the Board established to facilitate the business of the Board and the University: the Student Success Committee, and the Finance, Audit, and Enterprise Risk Management Committee. These committees provide opportunities for board members to gain deeper understanding of specific areas or issues, increase engagement of board members with relevant university constituents on specific topics, and leverage individual board member’s expertise. In addition, a special committee of the Board, the Executive Committee, ensures effective Board performance, and meets, as needed, on the call of the Chair of the Board.

All matters considered by the standing committees requiring action shall be referred to the Board for action.

A majority of the committee’s voting members shall constitute a quorum.

1.2 **Governance Development.** The Board believes that the educational interests of the University are furthered by encouraging an environment of collegiality. Therefore, it has established a system of shared governance in which the various elements of the institution are encouraged to participate. Without limiting its duties or authority, the Board directs its attention to matters of general policy relating to the institution’s mission, educational program, operation, and Strategic Plan.

1.3 **Policy Development.** The Board delegates responsibility for the development and administration of policies and management of the institution to the President, or his or her designees, including the appropriate unit or units of internal governance.

1.4 **Channel of Authority.** The channel of authority from the Board to the faculty, administrative officers, staff, and students shall be through the President.

   (a) **University Community Responsible to the President.** All faculty, administrative officers, staff, and students must, through appropriate channels, be responsible to the President, and through the President, to the Board, unless otherwise specifically directed by the Board.

   (b) **Recommendations for the Board Transmitted to the President.** When faculty, administrative officers, staff, and students bring forward recommended changes to policies, programs, and other matters that require Board consideration, such recommendations should be transmitted to the President and by the President to the Board with his or her recommendation.

   (c) **President to Engage Discussion.** If the President does not support the recommendations as forwarded, the President will first send it back to the recommending group with a statement of concerns and engage in discussions with the group regarding the proposal before forwarding it to the Board for consideration.

   (d) **President’s Recommendation and Background Materials to be Provided to the Board.** Background information, perspectives of constituents, and the recommendation of the President will be provided to the Board.

   (e) **Presidential Oversight of Governance Groups.** The Board has the responsibility for oversight of the President, but delegates authority to the President for oversight of faculty, staff, students, or others engaged in communications or by contract with the University.

   (f) **Communication to the Board by Governance Groups.** The presidents of the Faculty Senate and Associated Students may, in exceptional circumstances,
communicate directly to the Board collectively through written communication. Copies of such communication will be provided to the President. The presidents of those groups shall serve as the representatives of their respective elected bodies at all Board meetings where they are welcome to address the Board directly.

1.5 **Attorney General of Washington Provides Legal Counsel.** The legal advisor to the Board is the Attorney General of Washington. The assistant attorneys general assigned by the Attorney General to represent the University shall provide counsel to the University to and through the Board. The assistant attorneys general provide legal counsel to the various divisions of the University through the President.

SECTION 2

AUTHORITY, POWERS, AND DUTIES OF THE BOARD

2.1 **Title 28B RCW Establishes Board Authority.** The Board derives its authority from the laws of the state of Washington. ### 2.4 Conflict of Interest Standards

The following standards apply to each member of the Board of Trustees of Western Washington University and are intended to serve as guidance for everyone serving on the Board.

(a) **Fiduciary Responsibilities.** Members of the Board serve the public trust and have an obligation to fulfill their responsibilities in a manner consistent with this fact. All decisions are to be made solely on the basis of a desire to promote the best interests of the institution and the public good. The University’s integrity must be considered and advanced at all times.

Trustees are often involved in the affairs of other institutions, businesses, and organizations. An effective Board may not always consist of individuals entirely free from perceived, potential, or real conflicts of interest. Although most such conflicts are and will be deemed to be inconsequential, it is every Trustee’s responsibility to ensure that the Board is made aware of situations at the University that involve personal, familial, or business relationships.
(b) Affirmation and Disclosure. The Board requires each Trustee to annually affirm that the following standards must be adhered to:

1. Board disclosure of personal, familial, or business relationships. Each Trustee will disclose to the Board any personal, familial, or business relationship that reasonably could give rise to a perceived, potential, or real conflict of interest, as any such may arise.
   i. Public disclosure. Trustees are required by RCW 42.17.240-42.17A.700 to file annual statements with the Public Disclosure Commission relating to business interests and receipt of gifts.
   ii. Completion of disclosure form. Trustees must annually complete the disclosure form provided by the University. The completed forms are retained in the Office of the President.

2. Disclosure of potential or real conflict of interest. In the event there comes before the Board a matter for consideration or decision that raises a potential or real conflict of interest for any Trustee, the Trustee shall disclose to the Chair of the Board the existence of a potential or real conflict of interest as soon as possible.

3. Recording of disclosure in minutes. The disclosure shall be recorded in the minutes of the meeting where a vote by the Board will occur on the matter.

4. Seeking counsel regarding disclosure. In the event a Trustee is uncertain as to the need to make disclosure in a particular instance, the Trustee should seek counsel from the Chair and/or the President of the University. They, in turn, may elect to consult with legal counsel. A Trustee who is aware of potential or real conflict of interest with respect to any such matter shall not vote or participate in discussion in connection with the matter. That Trustee’s presence may not be counted in determining whether there exists a quorum for purposes of validating the vote on the matter.

(c) Situations Which Constitute Conflicts of Interest. While it is difficult to list all circumstances which create conflicts of interest for individual Trustees, the law defines some situations as prohibited actions. These include:

1. Assisting another person, whether or not for compensation, in any transaction with the University. Example: Trustees cannot affect the admission of individual applicants for student status. Trustees might well be involved in admission standards through delegation, but do not make decisions on individual applications.

2. Use of University resources for personal benefit. Example: Trustees cannot have office space to conduct their personal business on campus.

3. Use of official authority for personal gain. Example: Trustees cannot vote to extend a contract to a business in which they have a significant financial interest.
4. **Receipt of gifts, gratuities, and favors.** Example: Trustees cannot accept money from businesses with which the University has contracts as an inducement from the business to execute/extend a contract; and if gifts have been received during a reporting period, the Trustee must report them to the Public Disclosure Commission.

**SECTION 3**

**APPOINTMENT**

3.1 **Appointment by the Governor.** The Board is composed of seven members appointed by the Governor of the state of Washington with the consent of the Senate for terms of six years, and one additional university student member, who is appointed annually by the Governor for a one-year term (RCW 28B.35.100).

3.2 **Oath to Discharge Duties.** Each member of the Board is required to take an oath to discharge faithfully, impartially, honestly, and to the best of his or her abilities, the duties of a Trustee (RCW 28B.10.520). (See Appendix A.)

3.3 **Selection of Student Trustee.** The Governor shall select the student member from a list of candidates, of at least three and not more than five, submitted by the governing body of the Associated Students.

3.4 **Term and Qualification of Student Trustee.** The student member will hold his or her office for a term of one year from the first day of July and until his or her successor is appointed and qualified. The student member shall be a full-time student in good standing at the University at the time of appointment.

3.5 **Student Trustee Shall Excuse Himself or Herself.** A student trustee shall excuse himself or herself from participation or voting on matters relating to the hiring, discipline, or tenure of faculty members and personnel as required by RCW 28B.35.100 (4), or as it may be amended from time to time. (See Appendix A.)

The Board may authorize other members of the Board to sign documents in the absence of either the Chair or the Secretary. The Secretary shall be responsible for reviewing draft minutes of the Board meetings, which are prepared by staff assigned to the Board.

5.4 **Committees May be Established.** The Board or its Chair may establish such standing or special committees as are deemed appropriate. Committees shall advise the Board and the President of the University on matters referred to such committees for consideration.

5.5 **Notification of Trustee Violation.** In the event that a Trustee is acting in violation of Section 2.42, the President shall advise the Chair of the activity. The Chair shall direct the Trustee to cease the inappropriate activity. If the Chair is acting in violation, the Vice Chair shall be advised of the activity and shall direct the Chair to cease the inappropriate activity.

Members of the Board may appear by telephone or other telecommunications or video conferencing technology. Op. Att’y Gen. 4 (2017).

7.5 **Public Meetings.** All regular and special meetings at which a quorum of the Board is present shall be open to the public, with the exception of those portions of regular or special meetings specifically declared to be “executive sessions” as allowed by law, or to be otherwise exempt from the provisions of Chapter 42.30 RCW. Copies of the agenda and supporting materials for a meeting are provided to the President and members of the Board and made available to the public approximately one week in advance of the announced meeting. Except as otherwise provided by law, the Chair, President, or any Board member may add additional items to the agenda for regular meetings without notice to the members of the Board or the public. However, the topics at special meetings are restricted to those for which advance notice has been given. Public notice of a special meeting must be made 24 hours in advance of the meeting.

This twenty-one day requirement shall not apply if the legislature has not passed the omnibus appropriations act by May 15th, Ch.228, Laws of 2012.

**SECTION 9**

PRESIDENTIAL EVALUATIONS
9.1 **Annual Objectives.** It is anticipated that the President will set out objectives, goals, and priorities for the next year, subject to Board approval. At the conclusion of each year, the President will report to the Board on his or her progress. The Board will seek confidential input from the Vice Presidents, Faculty Senate President, and Associated Students President.

9.2 **Evaluations.** A formal evaluation of the President’s performance shall be as set forth in the President’s contract. Thereafter, formal evaluations will be every fourth year, provided, however, that the Board may, at its discretion, defer the formal evaluation for an additional year. The Board may also initiate a formal review if desired sooner.

9.3 **Criteria and Process for Evaluation.** It is the responsibility of the Board to establish the criteria and process for evaluation and to communicate these in advance to the President. The process will include a “360 degree component,” allowing for confidential input to be sought and provided regarding the effectiveness of the President in achieving annual objectives and such other performance measures to be considered. Among other standards and criteria for evaluation, the Board shall consider the following:

- Leadership, internal and external to the institution;

9.5 **Additional Leave May be Requested.** After the third year of a President’s appointment, the President shall be entitled to request two months of leave time in addition to annual vacation leave. **Commented [HK3]:** This is something that the Chair may need to discuss with the President to ensure there are no concerns from his perspective on the removal of this provision. He may wish to have an opportunity to consult with his attorney, but I would suggest leave provisions are best left in the President’s contract.
SECTION 10

POLICIES

10.1 President Authorized to Adopt Interim Policies. The Board authorizes the President to adopt interim policies or procedures to meet legal or operational requirements as needs arise, keeping the Board informed of such action.

Western Washington University Board of Trustees
Board of Trustees Committee Charters

The Board of Trustees Committee Charters enhance the purpose and advance the work of the Board. The Charters allow the board to focus its work, which largely occurs in its committees, on discussions of key institutional issues and responsibilities that align with the Board’s governance roles.

There are two standing committees of the Board established to facilitate the business of the Board and the University: the Student Success Committee, and the Finance, Audit, and Enterprise Risk Management Committee. These committees provide opportunities for board members to gain deeper understanding of specific areas or issues, increase engagement of board members with relevant university constituents on specific topics, and leverage individual board member’s expertise. In addition, a special committee of the Board, the Executive Committee, ensures effective Board performance, and meets, as needed, on the call of the Chair of the Board.

All matters considered by the standing committees requiring action shall be referred to the Board for action.

A majority of the committee’s voting members shall constitute a quorum.

2018 Distinguished Alumna, Campus School

One of seven Stimpson siblings—all of whom attended the Campus School—Catharine R. Stimpson began her professional life of academic accomplishment and critical inquiry in the John Dewey-influenced classroom of the Campus School. For Stimpson, the Campus School, along with her family, was the perfect foundation for her education. The quality teaching, the nurturing atmosphere, the experiential learning, and the love of learning the Campus School embodied gave Stimpson confidence and an intellectual curiosity that propelled her into academia.

“What I carried with me—and also from my undergraduate experience—was to make the classroom fun,” she says, “a place where you anticipate the joy of education, where there is a combination of intellectual rigor and deep kindness.”

Stimpson attended Bryn Mawr College, Cambridge University, and Columbia University. A pioneer in the study of women and gender, she founded Signs: Journal of Women in Culture and Society in 1974, where she remained editor until 1980. She published a novel called “Class
Notes” in 1980 and edited a book series for the University of Chicago Press. She was the first
director of the Women’s Center at Barnard College. From 1994 to 1997, she was the director of
the MacArthur Foundation in Chicago, home of the MacArthur “Genius” Fellowship Awards.
Armed with her unconventional progressive education from the Campus School, quick wit, and
fierce intellect, Stimpson published eight books, more than 150 monographs, essays, and
stories, and served as co-editor of the two-volume Library of America edition of the works of
Gertrude Stein.

Stimpson’s substantial contributions to the world of literary criticism and community service do
not end there. She chaired the New York State Council for the Humanities, the National Council
for Research on Women, and served as president of the Modern Language Association. She
also served as a board member of PBS. She chaired the Ms. Magazine Board of Scholars and
served as a member of the editorial group of Change magazine from 1992 to 1994. She
currently chairs the board of Scholars at Risk, which provides assistance to threatened scholars
worldwide. She teaches, among other things, Law and the Imagination at NYU Abu Dhabi.
Though she travels the world and resides in New York, Stimpson celebrates her roots at The
Campus School and in Bellingham in her professional life every day.

SECTION 22 COMPENSATION

High quality faculty and staff are crucial for providing students an integrated Western experience. The University faces an increasingly competitive national marketplace for the services of faculty and staff. Therefore: The University needs to maintain ongoing emphasis on achieving competitive salaries and broad-based benefits for faculty and staff.

The University and the Union agree to collaborate in furthering statewide awareness of the importance of investment in competitive salaries and broad-based benefits for higher education.

22.1 Salary

22.1.1 The academic salary schedule begins on September 16 and ends the following June 15.

22.1.2 The initial salary for tenured and tenure-track faculty and non-tenure-track faculty is set forth in the letter of offer.

22.1.3 Effective September 16, 2015, all faculty, with the exception of those mentioned in 22.1.3.1, will receive a basic salary increase of 3.75%. If the CBA becomes effective after September 16, 2015, all faculty shall receive the balance of their basic salary increase which is not to be covered in future pay periods as a single lump sum in the first salary payment to include the basic salary percentage increase.

22.1.3.1 New faculty hired for the 2015-16 academic year do not automatically receive the salary increase in 22.1.3. The UFWW President and the Provost will review the salaries of these faculty and take action to address any salary inequity by December 15, 2015.

22.1.4 Effective September 16, 2016, all faculty, with the exception of those mentioned in 22.1.4.1, will receive a basic salary increase of 3.75%.

22.1.4.1 New faculty hired for the 2016-17 academic year do not automatically receive the salary increase in 22.1.4. The UFWW President and the Provost will review the salaries of these faculty and take action to address any salary inequity by December 15, 2016.

22.1.5 Effective September 16, 2017, all faculty, with the exception of those mentioned in 22.1.5.4, will receive a basic salary increase as described below in sections 22.1.5.1 through 22.1.5.3.
22.1.5.1 The total salary increase in the third year shall be $X + 1.25\%$. $X$ is the amount allocated by the Washington State Legislature for general salary increases for fiscal year 2018.

22.1.5.2 If the total of $X + 1.25\%$ in the third year does not equal 4.25\%, then either the WWU Administration or UFWW will have the right to reopen and bargain Section 22.1 and Section 22.2 of the Agreement. If neither side opts to reopen and bargain these sections the total salary increase in the third year will be 4.25\%.

22.1.5.3 The fraction of the total salary increase in the third-year to be distributed as across-the-board is in the same proportion as in years one and two. This proportion is equal to the fraction $\frac{3.75}{4.25}$.

22.1.5.4 New faculty hired for the 2017-18 academic year do not automatically receive the salary increase in 22.1.5.1-22.1.5.3. The UFWW President and the Provost will review the salaries of these faculty and take action to address any salary inequity by December 15, 2017.

22.1.7.1 New faculty hired for the 2019-20 academic year do not automatically receive the salary increase in 22.1.7. The UFWW President and the Provost will review the salaries of these faculty and take action to address any salary inequity by December 15, 2019.

22.1.7.2 If the amount allocated by the Washington State Legislature for general salary increases for fiscal year 2020 is outside the range 2.75\%-3.25\%, the UFWW and the University will reopen and bargain Section 22.1 and Section 22.2 of the Agreement.

22.2 Compression and Equity Adjustments
22.2.1 An amount equal to 0.50% of the actual salaries paid to faculty members in the bargaining unit in 2014-15 shall be distributed as of September 16, 2015 as salary increases to selected faculty effective at the beginning of the academic salary schedule. The process of dividing and distributing this amount will follow that outlined in Appendix E and sections 22.2.4 through 22.2.10. If the CBA becomes effective after September 16, 2015, all faculty shall receive the balance of their compression and equity adjustment which is not to be covered in future pay periods as a single lump sum in the first salary payment to include the compression and equity adjustment increase.

22.2.2 An amount equal to 0.50% of the actual salaries paid to faculty members in the bargaining unit in 2015-16 shall be distributed as of September 16, 2016 as salary increases to selected faculty effective at the beginning of the academic salary schedule. The process of dividing and distributing this amount will follow that outlined in Appendix E and sections 22.2.4 through 22.2.10.

The process of dividing and distributing this amount will follow that outlined in Appendix E and sections 22.2.4 through 22.2.10.

22.2.3.1 The total salary increase in the third year shall be $X + 1.25\%$. $X$ is the amount allocated by the Washington State Legislature for general salary increases for fiscal year 2018.

22.2.3.2 If the total of $X + 1.25\%$ in the third year does not equal 4.25\%, then either the WWU Administration or UFWW will have the right to reopen and bargain Section 22.1 and Section 22.2 of the Agreement. If neither side opts to reopen and bargain these sections the total salary increase in the third year will be 4.25\%.

22.2.3.3 The fraction of the total salary increase in the third-year to be distributed as compression and equity is in the same proportion as in years one and two. This proportion is equal to the fraction $0.50/4.25$.

22.2.4 For distributions in 2015-2016, all tenured and tenure-track faculty will be evaluated for compression and equity adjustments. Non-tenure track faculty are not eligible for compression and equity adjustments.

Non-tenure track faculty who are not senior instructors are not eligible for compression and equity adjustments.
22.2.6 Faculty who did not meet expectations in their most recent reviews cannot receive an adjustment. Faculty who address deficiencies in failed reviews and subsequently meet expectations are eligible for adjustments in the year compression and equity adjustments are next available.

22.2.7 For the distributions in the 2015-2016 academic year, the administration will provide the UFWW with a list of the proposed adjustments by November 15, 2015. For the distributions in the 2016-2017 and 2017-2018 academic years, the administration will provide the UFWW with a list of the proposed adjustments by July 15 of the preceding academic year (July 2016 and July 2017, respectively).

The representatives will identify any anomalies, omissions, or errors and suggest possible remedies. These representatives may suggest changes on which a consensus is reached in each year of the agreement by the deadlines outlined in section 22.2.9 and 22.2.13 of the CBA to the Provost and the UFWW President, who must agree for any suggested changes to be adopted.

22.2.9 For the distributions in the 2015-2016 academic year, the final recommendations of the representatives shall be submitted to the parties of this agreement by December 10, 2015. More specifically, if U dollars remain undistributed after this process, and T dollars is the total of all faculty salaries in the current academic year after all other salary adjustments have been implemented, each faculty member shall receive a fractional increase equal to U/T in the salary for the current academic year.

22.2.11 An amount equal to 0.75% of the actual salaries paid to faculty members in the bargaining unit in 2017-18 shall be distributed as of September 16, 2018 as salary increases to selected faculty effective at the beginning of the academic salary schedule. The process of dividing and distributing this amount will follow that outlined in Appendix E and sections 22.2.5, 22.2.6, 22.2.8, and 22.2.10.

22.2.12 An amount not greater than $100,000 shall be distributed as of September 16, 2019 as permanent salary increases to selected faculty effective at the beginning of the academic salary schedule. The process of dividing and distributing this
amount will follow that outlined in Appendix E and sections 22.2.5, 22.2.6, 22.2.8, and 22.2.10.

22.2.12.1 If the amount allocated by the Washington State Legislature for general salary increases for fiscal year 2020 is outside the range 2.75%-3.25%, the UFWW and the University will reopen and bargain Section 22.1 and Section 22.2 of the Agreement.

22.2.13 For any distributions in both the 2018-19 and 2019-20 academic years, the administration will provide the UFWW with a list of the proposed adjustments by July 15 of the preceding academic year (July 2018 and July 2019, respectively). Following the provision of the proposed adjustments to the UFWW, but prior to the distribution of the salary adjustments, representatives of the administration and UFWW will have the opportunity to review the proposed adjustments. The representatives will identify any anomalies, omissions, or errors and suggest possible remedies. These representatives may suggest changes on which a consensus is reached in each year of the agreement by August 15 of the academic year (August 2018, August 2019, respectively) to the Provost and the UFWW President, who must agree for any suggested changes to be adopted.

22.3 Post-tenure Review. All faculty who have exceeded department standards in at least one category of teaching, research, or service and who have met department standards in the remaining categories in a post-tenure review shall receive a 3% increase to their basic salary effective the following September.

22.4 Promotion and Advancement

22.4.1 Tenured and tenure-track faculty who receive a promotion shall have their base salary increased by 10% effective September 16 following the promotion.

22.4.2 Instructors who advance to senior instructor shall have their base salary increased by 10%, effective September 16 following the advancement.

22.5 Department Chairs

22.5.1 Chair stipends are based upon the total combined departmental FTE of tenured faculty, tenure-track faculty/non-tenure-track faculty, and staff, calculated on October 31 of each year. The stipends are payable quarterly, including summer, and are determined according to the following formulae:

22.5.1.1 Let FTE be defined as in 22.5.1 above.

22.5.1.2 The stipend per quarter = $1475 + ($85 × FTE).

22.5.1.3 The stipend per year = $5900 + ($340 × FTE).
22.5.1.4

a. For academic year 2018/19 the stipends specified in 22.5.1.2 and 22.5.1.3 will increase by the same percentages as the basic faculty salary increases specified in Section 22.1.

b. For academic year 2019/20 the stipends specified in 22.5.1.2 and 22.5.1.3, as increased by 22.5.1.4.a, will increase by the same percentages as the basic faculty salary increases specified in Section 22.1.

22.5.2 Annual faculty appointment contracts for department chairs, during their term(s) of chair duty, are for 9.5 months (September 8 - June 22).

22.5.3 Department Chairs receive a temporary 0.75% base salary increase on September 8th of each year they serve as Department Chair. This increase becomes permanent after four consecutive years of department chair service. For Department Chairs in mid-appointment as of July 1, 2013, prior years of uninterrupted service count toward the four years of service necessary to receive the permanent base salary increase, but not toward the amount of the increase. Interruptions in service (as defined in Section 11) are accommodated provided the chair returns to the appointment after the leave and does serve a full four years. Chairs who are called back to chair service for reasons of administrative exigency may add all prior chair service toward fulfillment of the requirement that four consecutive years be served for the permanent salary increase. Salary increases do not accumulate during interruptions of service, and are not assigned to any chair service rendered prior to July 1, 2013.

Should a UFWW/WWU Collective Bargaining Agreement subsequent to the present one change or eliminate the compensation stipulation of this article, the salary increases accumulated under the present Agreement will still vest after four consecutive years of service, even if that four-year period ends after the expiration of the present Agreement.

22.5.4 Department chairs shall negotiate with the dean, with the approval of the Provost, any reduction in teaching load associated with the position.

22.6 Academic Program Directors

The Provost or dean will determine the appropriate stipend and/or release time in accordance with the responsibilities of each position. A stipend shall be at least $1000 in each quarter, including summer session, for which there are program responsibilities. In no case will the compensation given to program directors for the current level of responsibilities decrease.

22.6.1 For academic year 2018/19 any stipends awarded under 22.6 will increase by the same percentages as the basic faculty salary increases specified in Section 22.1.
22.6.2 For academic year 2019/20 any stipends awarded under 22.6, as increased by 22.6.1, will increase by the same percentages as the basic faculty salary increases specified in Section 22.1.

The funds will be allocated and administered by deans of colleges and Library in accordance with criteria and procedures in guidelines developed within the faculty governance bodies of each college and the Library. All faculty members are eligible to apply for the funds. When requested, the Provost will review with UFWW representatives the faculty development and professional travel pool expenditures.

- Faculty Senate President
- Chair of ACC
- Chair of UPRC

For academic years 2015-16, 2016-17, and 2017-18, the minimum per SCH rates for these undergraduate and graduate courses will increase by the same percentages as the basic faculty salary increases specified in Section 22.1. The current academic year in the following formula is the year during which the salary adjustments are to be awarded. The reporting academic year is the academic year for which the CUPA data are reported. This will be the academic year prior to the current academic year; for example, in determining salary adjustments for 2015-16, CUPA data from 2014-15 will be used.

1. Salary adjustments for eligible faculty shall be determined by the following formula:

\[ A_i = \max\left\{ T_{j[i],k[i]} \times 1.10^* \times (1 + \min[g(Y_i),16] \times 0.0025) - S_i, 0 \right\} \]
\[ \times \frac{100,000}{\sum_{i=1}^N \max\left\{ T_{j[i],k[i]} \times 1.10^* \times (1 + \min[g(Y_i),16] \times 0.0025) - S_i, 0 \right\}} \]

\[ A_i = \max\left\{ T_{j[i],k[i]} \times 1.10^* \times (1 + \min[g(Y_i),16] \times 0.0025) - S_i, 0 \right\} \]

1. **1.10 (110%)** is an adjustment to account for cost-of-living differences between Western Washington University and the peer group specified in this Appendix, Section 2.a.

2. The College and University Professional Association [http://www.cupahr.org/] produces an annual higher education salary survey. The CUPA target salaries shall be based upon the following parameters:

   a. The peer group used for target salaries shall be as follows:

   | 2010 Carnegie Class: Master’s College and Universities (Larger Programs) |
   | Affiliation: Public |
   | Student FTE: 10,000 and above |
   | Excludes Western Washington University. |

   b. Other CUPA parameters in calculating target salaries shall be as follows:

   | Comparison data aged at default aging rate (for example, 2.1% for the 2014-2015 data). |
   | Aging Date: September 15 of the current academic year. |
   | Weighted Statistics |

   c. For senior instructors, $T_{j,k}$ shall be determined as follows. For faculty member $i$ in discipline $j$, the “Per-Course Faculty (Four-Year Institutions)” survey data will be used to determine the mean per-credit hour wage rate $W_j$ for NTT faculty in discipline $j$ as reported by CUPA. Let $C_i$ be the planned credit-hour load for faculty member $i$ in the current academic year. Then:

   $$T_{j[i],k[i]} = W_j \times C_i \times 1.10$$

   d. For tenured and tenure-track faculty, $T_{j,k}$ shall be obtained directly from “Faculty in Higher Education (Four-Year Institutions)” survey data.

   e. If $T_{j,k}$ (or $W_j$) does not exist for certain $j$, $k$ combinations in the relevant peer group, representatives of the administration and the UFWW (see 22.2.8) shall obtain an estimate of $T_{j,k}$ (or $W_j$) for those $j$, $k$ combinations using a mutually agreed-upon peer group for which the $T_{j,k}$ (or $W_j$) do exist.

   f. If $j[i]$ is unavailable for faculty member $i$, representatives of the administration and the UFWW shall determine an appropriate code $j$ for faculty member $i$. Changes in $j[i]$ must be approved by the Provost and the UFWW President.

   g. For academic year 2018-19, $S_i$ is the academic year base salary of faculty member $i$ as it would be on January 1, 2019 if no Compression and Equity adjustment had been awarded on September 16, 2018.

Richard Van Den Hul, Vice President, Business and Financial Affairs
Linda Teater, Director, Budget Office

SUBJECT: Action Item
Approval of 2018-2019 Academic Year Tuition Rates

Purpose of Submittal:
The Legislature and Governor have passed and signed an appropriations bill. Based on this approved bill and the FY 2019 Western Washington University recommended budget, the Board is requested to approve 2018-2019 Academic Year Tuition Fees. Tuition fees include both the tuition operating fee and the capital building fee for each category of student.

Proposed Motion:
MOVED, that the 2018-2019 annual tuition operating fee and capital building fee rates for state-funded resident undergraduate students be raised by 2.2%; and

FURTHER MOVED, that the 2018-219 annual tuition operating fee and capital building fee rates for non-resident undergraduate students be raised by 5.0%; and

FURTHER MOVED, that the 2018-2019 annual tuition operating fee and capital building fee rates for resident graduate, non-resident graduate, resident MBA, and rates for resident and non-resident students in the Audiology and Speech Pathology programs be raised by 4.5%; and

FURTHER MOVED, that the 2018-2019 annual tuition operating fee and capital building fee rates for non-resident Masters in Business Administration (MBA) students be raised by 30.6%.

Supporting Information:
Please see attached supporting information, including charts detailing proposed dollar and percent increases for 2018-2019 tuition fees, comparison data to other Washington institutions of higher education, and the historical total cost of attendance for resident undergraduate students.

Additional Information:
The fiscal 2018-2019 operating budget plan which relies on tuition operating fee revenue generated by the tuition changes proposed under this submittal, will also be presented at the June 15, 2018 Board meeting.

Memo of Supporting Information on Setting 2018-2019 Academic Year Tuition
TO: Members of the Board of Trustees

SUBJECT: Supporting Information on Setting 2018-19 Academic Year Tuition

In accordance with the College Affordability Act of 2015, Western has the authority to raise resident undergraduate (RUG) tuition operating fees by the average annual percentage growth rate in the median hourly wage for Washington for the previous 14 years as determined by the federal bureau of labor statistics. For fiscal year 2018-19, this average rate is 2.2%.

Tuition rates for nonresident undergraduate (NRUG), resident graduate (RG), and nonresident graduate (NRG) students are set by the Board of Trustees after analyses of market constraints of supply and demand, and comparison costing with our peers.

Proposed 2018-19 Tuition Rates for WWU

Upon the recommendation of the Vice Presidents and Deans, and after review by the campus, it is recommended that Western increase the state-funded resident undergraduate tuition rate by 2.2% as authorized by the College Affordability Act of 2015. It is further recommended to increase non-resident undergraduate rates by 5.0%. Finally, it is recommended to increase all other rates (resident graduate, non-resident graduate, resident MBA and resident and non-resident students in the Audiology and Speech Language Pathology programs) by 4.5%, and non-resident Masters of Business Administration (MBA) rates by 30.6%.

As required by law, proposed capital building fee percentage increases are equivalent to the tuition operating fee percentage increases for each student category. Please see Attachment A detailing percentage and dollar increases for all the above student categories.

The Washington Student Achievement Council (WSAC) national average data we have utilized in the past for comparative purposes is not currently available. The Washington state higher education institutional data analysis we provide here has been collected through phone calls and emails, but some are still awaiting approvals by the institutions Board of Trustees or Board of Regents.
Resident Undergraduate Tuition: The majority of Western’s students are resident undergraduates, making up approximately 87.9% of the headcount for the 2018 academic year. An increase of 2.2% in the operating fee component of the tuition fees as recommended for this student group, equates to an annual increase of $138.

- Tuition increased for this classification by 2.2% in 2017-18 and decreased by 15.0% in 2016-17.
- UW resident undergraduate tuition is 58.5% higher than Western.
- Please see Attachment C for historical cost of attendance for this student classification.

Non-Resident Undergraduate Tuition: Non-resident undergraduate students represented approximately 11.3% of Western’s 2018 academic year headcount. The proposed tuition increase for non-resident undergraduate students is 5.0% equating to an annual increase of $1,038.

- Tuition increased for this classification by 3.5% in 2017-18 and 2.9% in 2016-17.
- UW non-resident undergraduate tuition is 62.9% higher than Western.
- Market and comparison costing analyses indicate that Western’s non-resident tuition was extremely low in comparison to the other Washington public four-year institutions. As discussed at the April 2018 Board meeting, based on the quality of our programs, it has been determined that we would like to position our non-resident tuition rate between Washington State University and Eastern Washington University rates, but that it will take us several years of 5.0% increases to meet that objective.

Resident Graduate Tuition: Resident graduate students represented 3.7% of Western’s 2018 academic year student headcount. The proposed tuition increase for resident graduate students is 4.5% equating to an annual increase of $418.

- Tuition increased for this classification by 3.5% in 2017-18 and 2.9% in 2016-17.
- UW resident graduate tuition is 59.9% higher than Western.
- Market and comparison costing analyses indicate raising resident graduate tuition would not discourage enrollments.

Non-Resident Graduate Tuition: Non-resident graduate students represented less than 1% of Western’s 2018 academic year student headcount. The proposed tuition increase for non-resident graduate students is 4.5% representing an annual increase of $896.
• Tuition increased for this classification by 3.5% in 2017-18 and 2.9% in 2016-17.

• UW non-resident graduate tuition is 33.5% higher than Western.

• Market and comparison costing analyses indicate raising non-resident graduate tuition would not discourage out-of-state enrollments.

**Differential Tuition:**

*Masters in Business Administration (MBA):* The MBA tuition rate had historically been the only differentiated tuition Western charged until academic year 2017-18. This differential tuition was approved by the Board of Trustees during the 2011-2013 biennial tuition setting process as part of a long-term strategy to price the MBA program appropriately in the marketplace.

The MBA program is changing its curricular format to compress into a five quarter schedule, resulting in students finishing and entering the workforce a full 10 months earlier than the existing program. As discussions with Study Group progress regarding the desire of international students to obtain MBA degrees, and in market analysis to comparable universities, our non-resident tuition rates are very low, as the table below indicates:

Tuition increased for this student classification by 3.5% in 2017-18 and 2.9% in 2016-17 for both residents and non-residents. It is recommended that the resident MBA rate be increased by 4.5% representing an annual increase of $484, and the non-resident MBA rate be increased by 30.6% representing an annual increase of $6,562.

*Speech Language Pathology:* Graduate students in speech language pathology are required to earn 400 clinical clock hours (working with patients) before they complete the program and become certified. The majority of these hours are earned in Western’s Speech Language and Hearing Clinic under the supervision of certified speech language pathologists (Clinical Educators). Changes in medical billing practices, due mostly to the Affordable Care Act, have made clinic revenue more unpredictable (some third party payers no longer cover speech-
language services, and those that do are reimbursing at lower rates). In addition, Medicare regulations have changed over the past five to ten years, and the clinic is no longer able to serve the Medicare population, due to requirements for supervision (a certified professional must be in the room 100% of time for Medicare reimbursement); therapy caps; and the overall cost of monitoring Medicare billing. In the past, the clinic “opted out” of billing Medicare and billed patients directly, gave discounts to Medicare patients, or “waived” fees for clients who demonstrated financial need. However, the current Medicare regulations do not allow speech pathologists and audiologists to opt out of billing Medicare if they bill other insurance providers, nor do they permit free services to some clients and not others. In other words, if the clinic bills other clients and/or insurance, it must bill Medicare directly for Medicare eligible clients and meet all of their requirements.

In 2017-18, the Board approved charging a differential tuition rate for this academic program, to enable patients to be seen at the clinic free of charge, eliminating the need to bill insurance companies including Medicare. This then restored the lifespan approach supported by our national accreditation organization, providing students with clinical experiences from infants to older adults.

The proposed tuition increase for Speech Language Pathology students is 4.5%, representing an annual increase of $637 for resident students and $1,177 for non-resident students.

Clinical Doctorate in Audiology (Au.D): As of 2007, the entry-level degree in audiology has been a clinical doctorate. For this reason, Western placed most of the graduate level audiology curriculum in moratorium in 2005, because we did not have legislative authority to offer doctorate level coursework. After obtaining the necessary legislative approval in the 2013-15 biennium, Western submitted a proposal to the state in the 2015-17 biennial budget for funding to establish a clinical doctorate program in audiology. Unfortunately, the decision package was not funded. As a high priority for the campus, plans were then initiated to internally fund this very important academic program. Analysis shows that to adequately fund this program for success, a differential graduate tuition rate must be established.

In 2017-18, the Board approved charging a differential tuition rate for this academic program, enabling Western to support local, state, and national demand and take advantage of space, curricula, and staff already in place. The Au.D. degree is offered by only six universities in the contiguous western United States, with no programs in Alaska and Hawaii.

The proposed tuition increase for Clinical Doctorate in Audiology students is 4.5%, representing an annual increase of $858 for resident students and $1,280 for non-resident students.

## Summary of Current and Proposed Mandatory Student Fee Levels

### Average Increase of 3.6% for existing fees

It is proposed to increase four of the nine existing mandatory student fees for 2018-19. This proposal constitutes a net average increase of 3.6% for all existing mandatory student fees ($20.15 per quarter.)

### Proposed Fee Increases - Effective Fall Quarter for 2018-19

Note: Per legislative action, beginning with Fiscal 2018-19 all S&A Fee increases are limited to 4% per year rather than the percentage increase of resident undergraduate tuition.

### Notes:

1. Fee is subject to 3.5% Student Financial Aid/Loan Fee deduction and increases are limited to 4% by SSHB 1433 signed into law on 3/22/18.
2. Bond Covenants pledge a minimum of $32 per full-time student per quarter and $6.40 per part-time student per quarter to the Housing & Dining System.
3. Mandatory $1 per quarter billed but with the ability to "opt-out."
4. The Multicultural Center Fee began Fall 2017. It is pledged to the Housing & Dining System, but not directly to bonds. In March 2018, bond counsel informed WWU that this fee is not technically an S&A Fee so does not follow those RCW’s, but the institution has been collecting 3.5% for the Student Financial Aid/Loan Fee.

2018-19 Mandatory Student Fees

Services & Activities Fee

Proposed Distributions and 4.00% Increase in Fee

Proposed Fee and Distribution: The Services and Activities (S&A) Fee Committee recommends a 4% increase (maximum allowed by law) to the Services & Activities Fee for the 2018-19 academic year, maintaining the Summer 2019 rate at 65.15% of the academic year rate, and recommends approval of the distribution of fees for the 2018-19 academic year and summer 2018 as outlined.

Per HB1433, S&A fees were permanently decoupled from tuition in the 2017-18 legislative session but fee increases were capped at 4% on the non-funded portion of the fee. The committee proposes a 4% increase to the S&A Fee for the 2018-19 year (from $628.50 to $649.80 per academic year, or from $209.50 to $216.60 per quarter). This fee is prorated per credit ($21.66 per credit per quarter) with students enrolling in ten or more credits paying the full, maximum fee.

The following constituents receive funds from the Services & Activities Fee:
- Housing & Dining (per bond covenants)
- Associated Students (AS)
- Athletics
- Campus Recreation
- Department Related Activities Committee (DRAC)

It should be noted that even with a 4% increase, constituent areas cannot fully fund their needs. Budgets in the respective areas have been impacted by mandated increases in minimum wage, staff salary increases and changes in student employee payment practices that include a change from paying a stipend to an hourly rate as well as eligibility for paid sick leave.

Background

The Services and Activities (S&A) Fee Committee operates under the authority of RCW 28B.15.045 and makes recommendations on the distribution of S&A Fees for the following constituents groups: Housing & Dining, Associated Students, Athletics, Campus Recreation, and Department-Related Activities Committee (DRAC). In concert with the RCW, the Committee is comprised of both voting and non-voting members. The voting members are to include a faculty member and six students representing Associated Students (2), Athletics (1), Campus Recreation (1), and DRAC (2). The non-voting members include staff advisors from Associated Students, Athletics, Campus Recreation, DRAC, and a designee of the Vice President for Enrollment and Student Services. A staff member from the Vice President’s office also attends to record minutes. A student was selected from among the voting members to serve as this year’s chairperson. This is the second year in a row that a student has chaired the committee. This is also the second consecutive year in which the committee has been unable to secure a
faculty representative despite the efforts of the committee and the Faculty Senate to find a representative willing to serve who is also not affiliated with a constituent area.

The S&A Fee Committee follows an established annual process to prepare its recommendations on the level of distribution of S&A Fees. This process includes review of budget requests for each constituent group and an open hearing process to provide an opportunity for input from members of the campus community. Open hearings were held on April 10, 2018 and April 24, 2018 in regards to budget requests and the committee’s recommendations. Notice of these hearings was posted on the S&A Fee Committee website, published in Western Today and the AS Review, and posted as an announcement on the student’s MyWestern portal.

The vote on S&A fee scenarios for FY 19 academic year was 6-0 in favor of the allocation recommendations. For S&A fee Summer 2018 allocations the vote was 6-0 in favor or the recommendations.

CONSTITUENT BUDGET REQUESTS

The constituent groups took their work seriously to review their programs and budgets carefully, honoring their fiduciary responsibility regarding the impact of fees charged to all students. All committee meeting proceedings and documents are posted on the following website for the campus’ reference: http://www.wwu.edu/vpess/activitesmeetings.shtml. Detailed budget requests were presented at the April 3, 2018 meeting with updates provided at subsequent meetings.

One constituent group did not request an increase, the remaining constituent groups requested high priority needs. Separate requests were made for the academic year vs. summer.

For the second consecutive year, the overarching theme of the various requests was accounting for the impact of mandated increases due to changes in minimum wage and anticipated staff compensation. Even with a requested increase to the fee, constituent areas still face financial shortfalls in addressing these mandates and will continue to in the coming year as additional wage increases ($1.50/hour) will also occur in January of 2020. In addition, it should be noted that any requests to grow or enhance programs were not included in the requests to the board. These increases are limited to what is needed to maintain the base level of services and programs that this fee funds.

CONSTITUENT BUDGET REQUESTS FOR ACADEMIC YEAR 2018-19

Associated Students

The Associated Students requested an increase of $167,729 over the current year’s actual fee revenue. The requested increase is primarily to fund mandated wage increases in minimum wage and in planning for staff increases in salary and health benefit costs. If the S&A fee is allowed to increase 4%, the Associated Students is projected to receive 100% of their request.
Athletics

Athletics requested a total increase of $151,792. In discussions of the budget, Athletics removed their request for a full-time athletic trainer ($64,979) as this priority was additive to the program rather than addressing mandates as imposed on other constituent areas. The requested increase is directly related to the increase in minimum wage and in planning for staff increases in salary and health benefit costs and to bring the Head Strength Coach to full-time in response to a change in NCAA rules regarding required certification of strength coaches. If the S&A fee is allowed to increase 4%, Athletics is projected to receive 100% of their request.

Campus Recreation

Even though they are facing an increase in student wages due to the rising minimum wage, Campus Recreation did not request a budget increase to their S&A fee for the 2018-19 academic year. To offset these expenses, Campus Recreation plans to hire a part-time Intramural Coordinator instead of a full-time coordinator position. This will free up more dollars for increased student wage expenses.

Department Related Activities Committee

The Department Related Activities Committee (DRAC) requested an increase of $33,516 over the current year's actual fee revenue. The DRAC made a number of budgetary decisions to account for cost savings, to address mandated impacts, and to keep their requested increase at a minimum. The following decisions and factors were considered in their request:

- The Assistant Attorney General struck down federal exemption that allowed journalist/editorial positions to receive stipend pay. This ruling resulted in a switch to hourly positions for Student Publications Council student employees, which - in conjunction with minimum wage increases - drastically increased student employee wages.
- The DRAC eliminated a constituent group, Western Window, as it was determined that it didn’t fulfill requirements for DRAC membership. This served to decrease the DRACs overall annual operating budget.
- As part of program and budgeting process, the Student Publications Council (SPC) conducted an audit of programs to determine appropriate staffing levels; as part of a student-led decision-making process, the SPC eliminated over half of Western Front’s student employee positions, to develop a more balanced staffing level.
- Traveling to tournaments and competitions is a critical aspect of Western’s debate program and International Affairs Association (IAA); as a result, the Forensics program decreased staff compensation and increased operating budget for travel expenses.

If the S&A fee is allowed to increase 4%, the DRAC is projected to receive 100% of their request.
2018-19 Academic Year

Proposed Fee Distribution

- 3.5% to Student Financial Aid Fund as required by law.
- Music Copyright Fee to be allocated in the amount of $17,877.
- Housing & Dining to receive minimums as required by bond covenants for debt service. This amounts to $32 per quarter per full-time student and $6.40 per quarter per part-time student.
- Recommendation is based on projected revenue. Revenue in excess of projection to be allocated to constituents on a percentage basis.

Re: S&A Fee Committee recommendations

Thank you for your memo of 14 May outlining the Services and Activities Fee rates and distribution proposal for AY 2018-2019. I very much appreciate the committee’s hard work in crafting a proposal that addresses crucial student needs in a complex budgetary environment. Please share my thanks with the committee at large. I support the proposal and will be pleased to advance it to the WWU Board of Trustees for consideration at the 14-15 June meeting. I hope that members of the committee will attend the meeting so that I can recognize their important contribution.
2018-19 Mandatory Student Fees

**Student Recreation Fee**

Proposed 4.0% Increase in Fee

**2017-18 Program Report**

The Western Washington University Wade King Student Recreation Center (the Recreation Center) is a self-supporting, auxiliary enterprise of Western Washington University (WWU). The Recreation Center is an open recreation fitness and wellness facility for the benefit of eligible students and associated members of WWU. The facility includes a lap/leisure pool and a whirlpool, a three-court gym with elevated running track, a multi-activity court, a rock climbing wall, weight and cardio areas, two group exercise/aerobic rooms, locker rooms, an injury rehabilitation room, a retail food service and lounge area, a conference room, and administrative offices for Campus Recreation Services. The Recreation Center is located on WWU campus and is supported by a service and activity fee assessed to students quarterly. In addition, memberships are available for purchase by faculty/staff, alumni, and others closely associated with WWU.

Western Washington University’s Wade King Student Recreation Center is a state of the art open recreation fitness and wellness facility that has been created and shaped by the vision and support of Western Washington University students. The Recreation Center was one of the nation’s first recreation centers designed to meet Leadership in Energy and Environmental Design (LEED).

The Student Recreation Fee is determined through the inclusive process of the Recreation Center Advisory Committee (RCAC). The RCAC is made up of (9) University representatives from the following areas: Associated Students (AS) President or designee, at large student representative appointed by the AS Board, Residential Hall student representative, student Athletics representative, Sport Club Council President or designee, student representative at large appointed by Campus Recreation Services, and (3) faculty/staff representatives. This committee meets throughout the spring to discuss matters relating to the Recreation Center and its operations. As spring progresses the committee discusses the Recreation Center budget and any fee proposals. Representatives from the committee take the information back to their respective areas for further discussion. Information is then brought back to the committee where further discussion is exchanged and formal motions for fee recommendations are made. This approval meeting is an open forum where guests are also encouraged to attend and offer discussion on Recreation Center matters. For this particular meeting, the various student representatives brought back great discussion points from their groups and ultimately decided on a proposed rate increase of $4.05 per quarter, the maximum percentage allowed.
Wade King Student Recreation Center FY18:

- The Student Recreation Fee generated approximately $4.18 million in 2017-18.
- The fee funds annual bond payments, operations and long-term maintenance of the Wade King Student Recreation Center. Note: Additional revenues (e.g. voluntary memberships, rentals, course fees) of approximately $560,000 assist in funding operations (not shown below).

**FY18 Fee:** There is a proposed increase of $4.05 per quarter starting in the fall of 2018. This fee increase was proposed to primarily offset the additional costs of student employee wages. Although the RCAC approved the fee to be raised 6.1% last fiscal year, student fees were not decoupled from tuition and thus the fee could only be raised the 2.2% maximum. Student employee wages have increased a minimum of 16% due to new minimum wage standards that started in January 2017. Minimum wage increased again in January 2018 and is set to increase the following January (2019) during the next fiscal year. With over $670,000 targeted just for student employment, the impact of the minimum wage increase exceeds $100,000 when taking wage compression adjustments into consideration. We rely on these cost-effective, para-professional student work opportunities in order to facilitate our programs and services to our campus community.

Subject: RCAC Recommendations

I have received your memo dated May 25, 2017, summarizing the Recreation Center Advisory Committee’s recommendations for the Student Recreation Fee level for the 2018-19 Academic Year.

Please convey to the committee my appreciation for their thoughtful consideration in the development of these proposals. As a representative of the Administration, I am thankful for the effort the members made to address critical needs while remaining conscious of the impacts of fee increases on students.

The Committee’s recommendation has my support and I will bring it forward to the Board of Trustees for consideration at the June meeting. Please extend an invitation to the Committee members to attend the meeting set for June 15.

2018-2019 Mandatory Student Fees

Health Services Fee

Proposed 6.6% Increase in Fee*

Proposed Fee Increase*: The proposed increase is $7 per quarter for students taking 6 or more credits effective Fall Quarter 2018 (a 6.6% increase from $106 to $113 per quarter.)

Students, Faculty and staff serving on the Counseling, Health & Wellness Services Committee unanimously approved a proposal to increase the Health Services Fee by $7 per quarter ($21/academic year) to provide ongoing funding for current services and to provide additional support for Alcohol & Drug Consultation & Assessment Services (ADCAS) programs. The fee for the academic year would increase from $318 to $339.

Purpose of the Health Services Fee

The Health Services Fee is used to maintain a standard of health care for Western’s campus and as a contingency for emergency services. This fee provides a stable funding base for WWU’s health related services by providing easily accessible medical, mental health and wellness services to students.

The fee is the primary source of revenue that supports the staffing and operations of the Student Health Center, Prevention & Wellness Services and a portion of the Counseling Center (32%). Each of the departments provides a variety of clinical and educational services to Western’s students, some of which are mandated by law. A comprehensive list of services for each CHW department can be found at: http://www.wwu.edu/chw/

The Health Services Fee is a mandatory student fee for students enrolled for 6 or more credits. It is also available as an opt-in fee for other students enrolled for 3-5 credits that desire access to Counseling, Health & Wellness services. An average of 200 students/year, that are not required to pay the fee, opt in and utilize services.

All students receive the educational benefits of the health outreach programs and the benefit of preventive and public health services within a close-knit living community.

Current Fee and Proposed Fee Increase with Anticipated Annual Revenue

This proposal to increase the Health Services Fee from $106 to $113 per quarter is to provide ongoing funding for increases to salaries, benefits, goods and services, and an increase to the Administrative Services Assessment charged on gross revenue. The FY19 budget includes a budget adjustment to medical services revenue to more accurately reflect actual revenue received. The proposal also includes increased staffing for Alcohol & Drug Consultation & Assessment Services (ADCAS) by .750 FTE.

*Each $1/qttr. fee increase generates approx. $42,000/yr. in Health Services Fee revenue
$294,000 / 42,000 = $7 / qtr. fee increase

Proposed increases to salaries and benefits determined by the legislature will have a significant impact on a current budget that primarily consists of personnel expenses (82%). Goods & services (10.5%) and the Administrative Services Assessment (7.5%) make up the rest of the current budget.
The proposed $7/qtr. fee increase would generate an additional $294,000 in FY19 and would be used to fund increased expenses across all Counseling, Health & Wellness departments.

**Salary Increases & position FTE adjustments - $86,000**
Legislative across the board salary increases: Professional staff (Est. 3%) and two classified staff salary increases (2% July 1, 2018 and an additional 2% January 1, 2019). Classified staff steps and minimum wage increase for student workers. Increase to Health Center M.D. position from 9 to 10 months for summer coverage.

**Benefit Increases - $10,500**
Benefits associated with salary increases as well as $36/permanent staff/year increase to the employer cost of health care.

**New Position - $50,275**
.750 FTE  ADCAS Assistant Risk Reduction Specialist  $33,750 salary plus $16,525 benefits

**Goods & Services – $53,800**
An increase to goods and services for CHW departments to cover anticipated increases for expenses related to day to day operations. The Health Center will utilize most of this funding as there will be new ongoing costs for accreditation, as well as an upgrade to the electronic medical records/billing software and increased facility maintenance/custodial costs.

**Administrative Services Assessment - $40,425**
Calculated as a percentage of gross revenue. The university’s assessment rate will be increasing from 7.35% to 7.875%.

**Additional Health Services Fee Revenue to Replace Medical Services Revenue - $53,000**
To replace reduced Medical Services revenue that had been previously budgeted to support operations. ($97,000 reduced medical services revenue less $44,000 reduction in related medical goods and services expenses).

If the Health Services Fee is not increased, or only partially supported, other means of support would need to be provided and/or some services would need to be limited or eliminated. If not reducing services, the impact of not increasing the fee would be a shift to more user specific revenue sources which would require a significant change to the current business model.

Demand for all CHW services continues to increase each year. Increasing the Health Services fee to maintain access to services would continue the practice of having no charge for general medical office visits at the Health Center and no charge for counseling sessions.

It is becoming more and more difficult to find and obtain services from providers in the community. The mandatory Health Services Fee is a cost for students that maintains campus-based access to counseling, health and wellness services. When compared to the cost of obtaining the services in the community, it is still the most affordable option for students. This fee proposal would maintain a service model that has no financial impediment to accessing the services.
2018-2019 Mandatory Student Fees

Student Technology Fee

No Increase in Fee

Fee & Effective Dates: The Associated Students enacted a Student Technology Fee of $35 per quarter for students taking 6 credits or above and $17.50 per quarter for students taking 1-5 credits, effective fall quarter 2018 for a period of five years (through summer quarter 2023).

The Student Technology Fee, initially implemented in 1995, exists as an effective means of meeting the direct needs of students in accessing technology on campus at a time when state-allocated equipment funds are inadequate to support the ongoing technological needs of students. Since the initial implementation, students have continuously renewed the fee. In spring of 2018, the fee was renewed during the student elections, with 71% of students voting to approve the fee. Students recommend that efforts to procure state-allocated funding support continue and remain a priority.

The renewed Student Technology Fee (STF) funding is apportioned to the following projects:

- $15.00 to computer lab renewal and replacement (42.9%)
- $6.75 to the Student Technology Center (19.3%)
- $5.15 to wireless network renewal and replacement (14.7%)
- $4.35 to the STF tech initiatives (project proposals) (12.4%)
- $2.00 for the Digital Media Center (5.7%)
- $1.75 for Print Quota (5%)
The approved allotment from 2018 resulted in the following approximate expenses through summer of 2018.

**Projected Expenses Fiscal Year 2018**

- **Computer Labs** $600,000
- **Microsoft EES** $257,100
- **Wireless** $171,450
- **Student Tech Center** $171,450
- **Virtual Labs** $85,650
- **Tech Initiatives** $128,700
- **Print Quota** $107,100
- **Virtual Labs** $85,650
- **Tech Initiatives** $128,700
- **Print Quota** $107,100
- **Virtual Labs** $85,650
- **Tech Initiatives** $128,700

**Student Technology Fee Tech Initiatives (Project Proposal) Funding Allocation**

The Student Technology Fee Proposal Fund has the following mission.

The Student Technology Fee provides Western students with adequate and innovative technology experiences by:
- Broadening/enhancing the quality of the academic experience,
- Providing additional student access to technology, and
- Increasing integration of technology into the curriculum.

For the Tech Initiatives portion of the Student Technology Fee, students, faculty and staff are solicited for proposals that meet the STF mission. The Associated Students appoint a Student Technology Fee (STF) Committee to review the proposals. The STF Committee is comprised of four students, two faculty and the Vice Provost for Information Technology. The committee reviews each proposal, receives input from the colleges with the Deans’ proposal ranking within their colleges, receives advice from the Faculty Senate’s Academic Technology Committee and solicits comments from the campus population. The STF Committee then recommends proposals to be funded as projects to the President and AS President, who approve or modify the recommendation.

Non-Academic Building Fee

No Increase to Non-Academic Building Fee

Program Overview
Viking Union Facilities is an auxiliary function of Western Washington University that provides student activity focused facilities and services to campus. In addition, Viking Union Facilities provides support services to Associated Student programs housed in these facilities as well as campus wide support for Event Services and activities. As part of the University’s Housing and Dining System, funding for Viking Union Facilities comes from a blend of sources including the Non-Academic Building Fee, Service Fees, and a fixed portion the Service and Activity (S&A) Fee.

The Non-Academic Building Fee funds bond payments for the prior renovation of the Viking Union as well as ongoing maintenance, repair and renewal and some facility operations. For fiscal year 2018, the Non-Academic Building Fee was increased from $43 to $45 (4.7%) for students taking 6 or more credits.

Student Alternative Transportation Fee

No Increase in Fee

Program Report

- There are no proposed changes to the Alternative Transportation Fee for the 2018-2019 academic year. The quarterly fee for the academic year is $26.25, and the summer fee is $21.00. The fee pays for a WTA bus pass, Late Night Shuttle service, one student position of Alternative Transportation Coordinator, and staff administration and assistance.

- A three year agreement for the student bus pass was negotiated with WTA for September 2017 thru August 2020. Quarterly payments are calculated using “All Students” FTE figures from WWU’s Office of Institutional Research “WWU Total Student Enrollment” chart https://wp.wwu.edu/ir/, multiplied by the rates below.

The new agreement reflects an increase in WTA Expense from $816,000 FY17 to approx. $870,000 for FY18, with gradual yearly increases per future FTE and rate figures.

- The Student Transportation program implemented new technology for the student bus pass in summer 2017. The Western ID number is now read by WTA fare boxes as a bus pass, eliminating the need to separately encode a WTA bus pass number onto the ID card. This system is more seamless and convenient for students, and saves the cost of operating encoding machines used to write the WTA bus pass numbers onto ID cards.

- A real-time Shuttle Tracker website and App was implemented for the student Late Night Shuttle, providing students with up-to-the-minute arrival times and service messages. Students are able to see the location of the vehicles on a route map, www.wwu.ridesystems.net.

- Projected Revenue and Expense for Fiscal Year 2018 suggests the new WTA contract may cause Expense to exceed Revenue slightly. The program Cash Balance will buffer this for FY19.

- During 2018, the program will evaluate the need for a Fee increase in FY20.
2018 – 2019 Mandatory Student Fees

Legislative Action Fee

No increase in fee

The Legislative Action Fee is a mandatory fee of $1 per quarter charged to all registered students on any WWU campus. It was approved by the Board of Trustees in June 2014.

This fee funds student representation and advocacy efforts at the campus, local, state, and federal levels. Fee revenue collected in 2017 – 2018 totaled $52,293 as of May 30, 2018, and was used to support the following:

- Annual dues for AS membership in the Washington Student Association (WSA)
- Attendance by 7 students at the WSA Board of Directors Meeting and Retreat in August 2017
- Pay for the position of AS Board Assistant for Lobby Days to support the planning of:
  - Western Lobby Day, which took place on Jan. 15, 2018 and was attended by 85 students who participated in meetings with several dozen state legislators
  - Environmental Lobby Day, Ethnic Student Center Lobby Day, and Disability Lobby Day on Feb. 19, 2018, attended by 56 students
- Travel and lodging costs for students to attend Environmental Lobby Day, Ethnic Student Center Lobby Day, and Disability Lobby Day
- Travel to the spring WSA General Assembly meeting, with 14 students attending
- Travel costs for 3 students to attend the State Need Grant Lobby Day
- Costs for Local Lobby Day (Bellingham), attended by 30 students who participated in meetings with several City and County Council members and the Mayor
- Registration and travel costs for Nurse Legislative Day on January 22, 2018, supporting 10 students from Woodring College’s nursing program being able to meet with legislators
- Supplemented event costs for the Housing Crisis Panel event: “What Are Solutions to the Housing Crisis in Bellingham” which was hosted by the AS Representation and Engagement Programs
- Travel and lodging costs for 5 students to participate in the AS Federal Lobbying Trip in May 2018, in support of the two identified federal priorities for Western, increased federal support of Pell grants and a policy solution for DACA-eligible and other undocumented students
- Purchased copies of the book UndocuStudents: Our Untold Stories published by the Blue Group (the AS club supporting undocumented students), which were utilized on the Federal Lobbying Trip as a form of testimony and method for sharing student experiences with legislators in the nation’s capitol

Multicultural Services Fee

No Increase in Fee

Current fee level: $30 per quarter for students taking 6 credits or more

In June, 2016, the Board of Trustees approved the new Multicultural Services Fee at $30 per quarter effective Fall 2017. A total of $1.2 million has been collected to date after the RCW required 3.5% deduction for student loan/aid. Revenues are on target with projections. Summer quarter fee collections will begin in June.

Multicultural Center Funding Sources

The Multicultural Services Fee is the major source of funding for the construction, maintenance and facility operations of the Multicultural Center, and is pledged as part of Housing & Dining System revenues for the repayment of $18.565 million bonds issued in February 2018 at a true interest cost of 3.47%.

Additional funding sources include:

- Savings from the 2015 refunding of Viking Union bonds
- Associated Students, Viking Union and Enrollment & Student Services reserves
- An institutional minor capital contribution and annual commitment of funds for additional bond debt.
Most all of the funding sources support both CASH and BOND PAYMENTS for the project. In total, the project is approximately 82% bond-funded and 18% cash (some of the cash comes from first year fee collections which aren’t needed until FY19 for bond payments).

The bonds will be paid back largely from the new $30/quarter student Multicultural Services Fee (80.3% of the bond payment), but also from institutional funds (12.7% of bond payment) and from the Viking Union budget (7% of bond payment).

Note that when bonds are issued, the Housing & Dining System actually has to achieve a “debt service coverage ratio” of 1.4 to 1.0, meaning more revenue must be collected than is needed just for the bond payment. The extra amount goes into the Housing & Dining System budget for increased operating costs associated with the new space, as well as funding to pay for ongoing maintenance and long-term renewal and repair.

Students worked alongside the architects to articulate program needs and develop the design for a variety of uses. Below is a chart showing the dedicated functional spaces within the Ethnic Student Center (ESC) portion of the space:

Global Pathway Program:
The Global Pathway Program (GPP) is a new program beginning Fall Quarter 2018. The GPP prepares students for full-matriculation at both the Undergraduate and Graduate level.

- The GPP is a mixture of credit and non-credit courses designed for international students working towards full-matriculation in both undergraduate and graduate programs at Western Washington University.
- The GPP is self-sustaining and builds on the existing self-sustaining Intensive English Program. Students will be carefully placed into the GPP based on English proficiency test scores. The GPP may be completed between one and three quarters.
- Students in the GPP will receive additional academic support and cultural orientation to Western Washington University and the United States.
- Students enrolled in the Global Pathway MBA Program will receive non-credit and credit courses designed to support their future studies as fully matriculated MBA students.

The Proposed Global Pathway Undergraduate Program 2018 -19 tuition rate is a flat rate of $7,267 per quarter. The flat $7,267 per quarter tuition rate is the same as the 2018 - 19 state support non-resident undergraduate tuition rate for a full-time student. The proposed Global Pathway MBA Program 2018-19 tuition rate is a flat rate of $9,333 per quarter. The flat $9,333 per quarter tuition rates is the same as the 2018-19 state support non-resident MBA tuition rate for a full-time student.

2018-2019 Annual State Operating Budget

Schedule of Approvals Supporting the 2018-2019 Annual State Operating Budget

On June 15, 2018, the Board will be requested to approve tuition rates for all student categories
for the 2019 academic year. At this same meeting, the Board will be asked to approve the
2018-2019 Annual State Operating Budget, which relies on the projected tuition operating fee
revenues generated from these tuition rate proposals.

Introduction

In order to fund the basic instructional and academic support missions of the institution, we are
proposing, for Board approval, a 2018-2019 budget for state funded operations which reflects
revenue and expenditure estimates available for university operations from state appropriations,
et tuition operating fees, and the administrative services assessment.

Proposed 2018-2019 Annual State Operating Budget

Western’s state operating expenditures have been historically supported by a combination of
state appropriations, tuition operating fees, and the administrative services assessment. A
summary of all revenue sources is included in the table below. Please note that tuition operating
fee revenue is presented net of tuition waivers and Western’s student loan/grant fund
contribution at 4.0%, as required by state law.

Western's Student Loan/Grant Fund

The State definition of tuition fees comprises two components: operating fees and building fees. Tuition operating fees collected are currently subject to a 4.0% minimum set-aside for the WWU student loan and grant fund. The building fees and student activities fee are assessed at 3.5%. For the 2018-2019 fiscal year, Western will allocate close to $4.0M for this form of financial aid.

Western's Budget Process

In 2017, through Western’s inclusive budget processes, the campus developed an operating budget for the current biennium. The Board of Trustees approved the first year of that two-year budget at a special meeting in July 2017. This spring, the budget process re-examined year two of that budget to see if there are adjustments, or “emergent issues,” that should be included in the fiscal 2018-19 operating budget for the Board to act upon.

Campus planning unit leaders submitted proposals for emergent issue requests for the fiscal 2018-19 operating budget in April 2018 after the legislative session ended. Proposals were discussed at the University Planning and Resources Council (UPRC) and audiocast to the campus with venues for feedback on the proposals.

Budget Recommendation Detail

First, the Legislative Session which ended in March provided the following new funding for Western:

- $1.3M for a new degree program in Marine, Coastal and Watershed Sciences,
- $700k for an Early Childhood Education program on the Peninsula,
- $169k representing inflation on the previous years’ tuition backfill,
- $39k for textbook stipends for veterans, and
- One-time funding to a) study the feasibility of creating a campus on the Peninsula and b) integrate approved Native American Curriculum into our teacher preparation programs.

Next, the Vice Presidents and Deans evaluated all the emergent budget requests, related UPRC and campus feedback, and recommended a budget which includes among other things: funding for critical a) information technology (IT) needs, b) faculty lines for improving student access to courses for graduation, c) increased enrollment activities to achieve institutional goals and meet crucial student services needs, d) roll out of “Western Engaged,” e) implementation of Enterprise Risk Management, and f) coordinated marketing and advertising for Western. Additionally, new funding is recommended to stabilize Western’s Honors Program, provide additional resources for Civil Rights Investigative staff, and provide a Laboratory Technician for the Carver Academic Facility Anatomy/Physiology Cadaver lab. The President has reviewed the requests and submits them for Board consideration.

Additional details for all these recommendations may be found at:

New requirements for Intercollegiate Athletics

Substitute Senate Bill 6493 passed by the Legislature and signed by the Governor on March 27, 2018 requires “…the board of trustees… must specifically approve in an open public meeting, the annual budget for its programs for intercollegiate athletic competition in advance of any expenditure for that fiscal year.” It further stipulates that the Board show how it will address the budget portion not covered by revenue generated by Athletics. As Western has done in the past, the budget includes S&A Fees approved by students and tuition approved through the budget process to fund Athletics. The recommendation is to continue to do so in the future.

For fiscal year 2018-2019, the amount of the intercollegiate budget is comprised as follows:

Purpose of Submittal:

To update the Board of Trustees on capital planning for housing.

Supporting Information:

At the December 2016 meeting, the Board received an update on the Housing and Dining System Capital Plan. In that update there was information provided on the demand for additional private bedroom apartment-style housing on campus. Housing and Dining was considering a 200 bed apartment building just north of Buchanan Towers along South College Drive across from Harrington Field. After that Board meeting, the project was put on pause due to increasing cost estimates, to allow for additional enrollment planning, and to see the effect of private housing develop had on demand.

This past spring Enrollment and Student Services, Housing and Dining, and Business and Financial Affairs partnered together to take up the question of new housing and to update the demand analysis. We found that there continues to be strong demand for additional beds on campus, particularly for single bedroom options with food preparation and living facilities. The demand has elevated with recent enrollment increases and is projected to continue to grow with increasing international students.

Given the strong demand projections we are now considering a new 400 bed suite style building. We are beginning planning for the facility with an RFQ process to select a design build team to assist with the building. Preliminary plans have construction beginning in summer 2019 with construction completed for fall 2021 occupancy. At this point the item is informational. We would expect the Board to approve the design build team contract at its October 2018 meeting.

Each of these laws, with the exception of those required by law, authorizes but does not require the board of trustees to grant waivers for different categories of students and provides for waivers of different fees. The board of trustees or its delegate must affirmatively act to implement the legislature's grant of authority. A list of waivers that the board has implemented can be found in the Bulletin, Timetable of Classes, university web site, or any subsequently adopted publication.

(2) Even when it has decided to implement a waiver listed in RCW 28B.15.910, the university, for specific reasons and a general need for flexibility in the management of its resources, may choose not to award waivers to any or all students who may be eligible under the terms of the laws, or it may decide to grant partial waivers. SUBJECT: Approval to Adopt New Chapter 516-35 WAC, Use of University Property – Freedom of Expression and Assembly and Amend Chapter 516-36 WAC, Use of University Facilities - Scheduling  
PURPOSE: Action Item

Purpose of Submittal:
The manifestation of violence and intimidation observed in on-campus demonstrations in Washington State and across the United States over the past several months necessitate adoption of new chapter 516-35 WAC and amendments to existing chapter 516-36 WAC in order to preserve the integrity of Western Washington University’s educational mission, to protect the health, safety and welfare of students, faculty and staff, and to preserve University property and scarce state resources while at the same time preserving its strong commitment to freedom of expression.

Proposed Motion:
MOVED, that the Board of Trustees of Western Washington University, upon recommendation of the President, approve the adoption of new chapter 516-35 WAC Use of University Property – Freedom of Expression and Assembly and approve the permanent rule change to chapter 516-36 WAC Use of University Facilities - Scheduling as submitted.

Background:
Permanent rule making for chapter 516-36 WAC began in fall 2017 in response to emergency rule adoption by the Board of Trustees in October, 2017. The purpose of the emergency rule change was to immediately, on an interim basis, require all off-campus persons or groups, who desire to use University facilities or property, to have a University sponsor.

Upon adoption of the emergency rule, a revision committee was created to begin the permanent rule making process. The committee agreed that the sponsorship requirement would not be included in the permanent rule; thus, the emergency rule was allowed to expire February 9, 2018.

While in the process of revising chapter 516-36 WAC, the committee determined that using University property for an event, such as a wedding or birthday party, already had established internal procedures that function well and the rule should be amended to reflect the internal process. However, when the committee considered how to incorporate using University property for freedom of expression and assembly into the same process as using University property for events, it was decided that a new WAC chapter should be created.
The development of the new proposed permanent rule and proposed amendments to the existing rule was conducted by Eric Alexander, Associate Dean for Student Engagement and included representatives from the Attorney General’s Office, Risk, Compliance & Policy Services, Public Safety Department, Space Administration, Extended Education, Western Libraries, Government Relations, Office of Student Life, Associated Students, Enrollment and Student Services, and UFWW. The proposed rule was reviewed by the Technical Review Committee and President’s Cabinet and a public hearing was held to solicit community and campus feedback.

**WAC 516-35-005 General policy and purpose.** The university believes that freedom of expression and assembly are indispensable qualities of university life, and that active participation in political and social expression both enhances the education of the individual and contributes to the betterment of society. The university is committed to respecting and promoting the rights afforded by the constitutions of the United States and the state of Washington, including the right to free speech, petition, and to peaceably assemble.

University property is intended for use by students, faculty, and staff in support of the university's mission of teaching, research, and public service. Individuals, groups, or organizations may use university property in accordance with university rules and regulations.

To achieve the objectives of this chapter, it is essential that free expression be accomplished in a manner that allows for the orderly function of normal university operations. Thus, the purpose of the time, place, and manner regulations set forth in this chapter are to:

1. Promote opportunities for exercise of the rights protected by the constitutions of the United States and the state of Washington on the university campus.
2. Ensure that these activities do not interfere with the furtherance of the university's mission-related responsibilities for which the university's property is dedicated by the state of Washington.

**NEW SECTION**

**WAC 516-35-010 Use of university property—Notice.** (1) Any non-university group or individual who desires to use a limited public forum area on a temporary basis for freedom of expression or assembly in which more than fifty people are likely to assemble, must submit notice of planned use to the university police department and to the dean of students not less than fifteen business days prior to use.
However, use may be permitted with less notice so long as the use does not interfere with any other function or university operations.

(2) University affiliates or university groups or individuals who desire to use university property or a limited public forum area on a temporary basis for freedom of expression or assembly must adhere to applicable policies and laws and are requested to provide notice to the university police department and dean of students.

(2) In evaluating a notice submitted pursuant to this chapter, the president, or the president's designee, may consider a variety of factors including, but not limited to, the following:
   (a) Whether a university program or activity is scheduled at the location requested. First priority shall be given to the university program or scheduled activity;
   (b) Whether the use is in connection with a university program or activity;

Charges may be applied in the event any of these requirements are deemed to have costs associated with them. The university will not provide utility connections or hookups.

(4) Whenever the president, or the president's designee, rejects, either in whole or in part, a request for use of university property, the reasons for such rejection shall be stated in writing.

NEW SECTION

WAC 516-35-030 Use of university property—Exceptions and termination of use. The president, or the president's designee, may apply time, place, and manner exceptions to limit, relocate, reschedule,
terminate, cancel, or prohibit the use of university property for freedom of expression activities to protect persons or property from harm and the disruption of university operations including, but not limited to, violations of WAC 516-24-130, 516-52-020, or other laws or university policies.

NEW SECTION

WAC 516-35-040 Unscheduled expression and assembly—University affiliates or a university group or individual. Protecting impromptu and spontaneous peaceable assembly for the purposes of expression, protest, and dissent is essential to fulfilling the university's commitment to freedom of expression and assembly. Thus, the lack of notice to use university property by university affiliates or a university group or individual is not necessarily a sole basis for terminating any expressive activity, including impromptu activities, unless the protest or assembly conflicts with a previously scheduled event in the same location or is in violation of law and/or university policy including, but not limited to, WAC 516-24-130 and 516-52-020.

To ensure space is available for expression or assembly, university affiliates or a university group or individuals are encouraged to provide notice.

\textbf{WAC 516-36-001 Use of university (\textit{facilities by off-campus persons or groups—Requests}) property—General policy and purpose.} (\textit{Any person who is not affiliated with the university and who desires to use university facilities on a temporary basis for purposes other than assigned university activities shall submit a request for use of university facilities to the president or his designee.}) Western Washington University is an educational institution provided and maintained by the people of the state of Washington in order to carry out its broad missions of teaching, research, and public service. Background and Overview

Eric Alexander read from a prepared summary statement that provided the background and an overview of the rule making process. Mr. Alexander stated the following:

Permanent rule making for chapter 516-36 WAC began in fall 2017 in response to emergency rule adoption by the Board of Trustees in October, 2017. The purpose of the emergency rule change was to immediately, on an interim basis, require all off-campus persons or groups, who desire to use University facilities or property, to have a University sponsor.
Since the emergency rule’s adoption, a revision committee was created to begin the permanent rule making process. The committee agreed that the sponsorship requirement would not be included in the permanent rule; thus, the emergency rule was allowed to expire February 9, 2018.

While in the process of revising chapter 516-36 WAC, the committee determined that using University property for an event, such as a wedding or birthday party, already had established internal procedures that function well and the rule should be amended to reflect the internal process. However, when the committee considered how to incorporate using University property for freedom of expression or assembly into the same process as using University property for events, it was decided that a new WAC chapter should be created.

The rule revision committee included representatives from the following:

Viking Union
Space Administration
Western Libraries
UFWW
Campus Recreation
Facilities
University Police
Office of Student Life
Associated Students
Risk, Compliance & Policy Services
Enrollment and Student Services

Additionally, the Assistant Attorney General, Technical Review Committee, and President’s Cabinet provided review.

Mr. Alexander explained that new chapter 516-35 WAC Use of University Property – Freedom of Expression and Assembly is a new chapter that was formed in order to provide better support for those engaging in freedom of expression activities.

Mr. Alexander provided a summary of changes to chapter 516-36 WAC Use of University Facilities – Scheduling.

- Change in title from Use of University Facilities – Scheduling to Use of University Property – Scheduling and General use.
- Addition of a general policy and purpose statement. WAC 516-36-001

Amended section WAC 516-36-030. Amendment includes limitations on use of university property.

New section WAC 516-36-035. The current rule has a fees section; however, due to organization of the amended chapter it was relocated and a new section was created.

Amended WAC 516-36-040. This section now states how university property may be used for private or commercial enterprise or charitable use.

New section WAC 516-36-060. This section states how one could obtain a permit for a parade.

Testimony

The Rules Coordinator reported that no written testimony was received.

Audience Comments and Questions

There were no audience comments and no further testimony was given.

The hearing adjourned at 12:22 p.m.

Conclusion

Considering the thorough review process by campus constituents and because the public hearing allowed for an open forum of the campus community, I recommend the following:

- That President Randhawa approve the adoption of new chapter 516-35 WAC and approve the revisions to existing chapter 516-36 WAC; and further, that the proposed
new chapter and the proposed revisions to the existing chapter be brought before the Board of Trustees for consideration.

Respectfully submitted,

USE OF UNIVERSITY PROPERTY—FREEDOM OF EXPRESSION AND ASSEMBLY

NEW SECTION

WAC 516-35-001 Definitions. As used in this chapter, the following words and phrases mean:

1. Business day. Any day, Monday through Friday (excluding holidays), during which university offices are open.

2. Freedom of expression and assembly. Any activity protected by the first amendment to the Constitution of the United States and Article I, sections 4 and 5 of the Washington state Constitution. Such activities may include, but are not limited to, informational picketing, petition circulation, distribution of information leaflets or pamphlets, speech-making, demonstrations, rallies, noncontracted appearances of speakers, protests, meetings to display group feelings or sentiments, and other types of constitutionally protected assemblies to share information, perspective, or viewpoints. Freedom of expression or assembly that involves the placement of any furniture, hardware, prop, vehicle, display, sound amplification, or audio-visual device or other object on university property requires prior approved space reservation. To reserve use of university property, refer to chapter 516-36 WAC.

3. Limited public forum areas. Areas of campus available as spaces for freedom of expression and peaceable assembly as protected by the Constitution of the United States and the Washington state Constitution, subject to reasonable time, place, and manner restrictions. Limited public forum areas do not include:
   a. Classrooms or academic buildings conducting scheduled educational programming with the exception that nothing herein shall be read to interfere between or with the academic freedom of the instructor and enrolled students to engage in educational programs;
   b. Reservable or scheduled property subject to the provisions of chapter 516-36 WAC;
   c. Private administrative or academic offices;
   d. Lavatory or maintenance facilities;
   e. Roadways or sidewalks necessary to permit the free flow of pedestrian, vehicular, emergency responder, or maintenance traffic; or
   f. Any other university property, on a case-by-case basis, where the reasonable application of time, place, and manner restrictions render the location inappropriate for expressive activities.

4. Nonuniversity group or individual. An individual or a collection of individuals who do not have a formal relationship with the university. The term also includes members of these groups who are individually affiliated with the university who desire to use university property for personal, private, or nonuniversity group related activities.

5. Time, place, and manner. Reasonable limitations on the exercise of expressive rights that are neutral as to the content of expression and leave open alternative channels of expression.

(7) **University affiliate.** An entity that has a formal relationship with the university and also encompasses such entity's officers, agents, and employees. The term includes, but is not limited to, the office of the attorney general, contracted agencies, and 501(c)(3) organizations with formal relationships to the university.

(8) **University group or individual.** An individual or collection of individuals that has a formal relationship with the university, such as a recognized employee group of the university, a registered student group or organization or an individual acting on behalf of the group or organization as well as an individual who is a currently enrolled student or current employee.

(9) **University property.** All buildings, grounds, or assets owned or controlled by the university and the streets, sidewalks, plazas, parking lots, and roadways within the boundaries of property owned or controlled by the university.

**NEW SECTION**

**WAC 516-35-005 General policy and purpose.** The university believes that freedom of expression and assembly are indispensable qualities of university life, and that active participation in political and social expression both enhances the education of the individual and contributes to the betterment of society. The university is committed to respecting and promoting the rights afforded by the constitutions of the United States and the state of Washington, including the right to free speech, petition, and to peaceably assemble.

University property is intended for use by students, faculty, and staff in support of the university's mission of teaching, research, and public service. Individuals, groups, or organizations may use university property in accordance with university rules and regulations.

To achieve the objectives of this chapter, it is essential that free expression be accomplished in a manner that allows for the orderly function of normal university operations. Thus, the purpose of the time, place, and manner regulations set forth in this chapter are to:

(1) Promote opportunities for exercise of the rights protected by the constitutions of the United States and the state of Washington on the university campus.

(2) Ensure that these activities do not interfere with the furtherance of the university's mission-related responsibilities for which the university's property is dedicated by the state of Washington.

**NEW SECTION**

**WAC 516-35-010 Use of university property—Notice.** (1) Any non-university group or individual who desires to use a limited public forum area on a temporary basis for freedom of expression or assembly in which more than fifty people are likely to assemble, must submit notice of planned use to the university police department and to the dean of students not less than fifteen business days prior to use.
However, use may be permitted with less notice so long as the use does not interfere with any other function or university operations.

(2) University affiliates or university groups or individuals who desire to use university property or a limited public forum area on a temporary basis for freedom of expression or assembly must adhere to applicable policies and laws and are requested to provide notice to the university police department and dean of students.

(3) Submitted notices may include, but are not limited to, the following:
   (a) The contact information for the persons or organizations, including the organization's name and its contact person's name, person's name, address, email address, and telephone number;
   (b) The date, time, and location requested for use;
   (c) The nature and purpose of the use;
   (d) The estimated number of people expected to be involved, including participants, spectators, supporters, and detractors or others; and
   (e) Other information as may be reasonably requested.

NEW SECTION

WAC 516-35-020 Use of university property—Evaluation. (1) The president, or the president's designee, shall have the authority to accept, modify, or reject, in whole or in part, the planned use outlined or described in the notice submitted pursuant to this chapter.

(2) In evaluating a notice submitted pursuant to this chapter, the president, or the president's designee, may consider a variety of factors including, but not limited to, the following:
   (a) Whether a university program or activity is scheduled at the location requested. First priority shall be given to the university program or scheduled activity;
   (b) Whether the use is in connection with a university program or activity;
   (c) Whether the intended use is compatible with the educational mission and objectives of the university.

(3) The president, or the president's designee, may specify reasonable fire, safety, law enforcement, sanitation, cleanup, insurance, and other risk- or impact-mitigating requirements for the use of university property. Charges may be applied in the event any of these requirements are deemed to have costs associated with them. The university will not provide utility connections or hookups.

(4) Whenever the president, or the president's designee, rejects, either in whole or in part, a request for use of university property, the reasons for such rejection shall be stated in writing.

NEW SECTION

WAC 516-35-030 Use of university property—Exceptions and termination of use. The president, or the president's designee, may apply time, place, and manner exceptions to limit, relocate, reschedule,
terminate, cancel, or prohibit the use of university property for freedom of expression activities to protect persons or property from harm and the disruption of university operations including, but not limited to, violations of WAC 516-24-130, 516-52-020, or other laws or university policies.

NEW SECTION

WAC 516-35-040 Unscheduled expression and assembly—University affiliates or a university group or individual. Protecting impromptu and spontaneous peaceable assembly for the purposes of expression, protest, and dissent is essential to fulfilling the university's commitment to freedom of expression and assembly. Thus, the lack of notice to use university property by university affiliates or a university group or individual is not necessarily a sole basis for terminating any expressive activity, including impromptu activities, unless the protest or assembly conflicts with a previously scheduled event in the same location or is in violation of law and/or university policy including, but not limited to, WAC 516-24-130 and 516-52-020.

To ensure space is available for expression or assembly, university affiliates or a university group or individuals are encouraged to provide notice.

AMENDATORY SECTION (Amending WSR 90-10-042, filed 4/27/90, effective 5/1/90)

WAC 516-36-001 Use of university ((facilities by off-campus persons or groups—Requests)) property—General policy and purpose. ((Any person who is not affiliated with the university and who desires to use university facilities on a temporary basis for purposes other than assigned university activities shall submit a request for use of university facilities to the president or his designee.)) Western Washington University is an educational institution provided and maintained by the people of the state of Washington in order to carry out its broad missions of teaching, research, and public service. A state agency is under no obligation to make its public property available to the community for private purposes, and the university generally reserves its property, buildings, and grounds for its mission-related activities, including: Instruction, research, assembly, student activities, and recreational activities related to education. However, the university makes property available for a variety of uses that are of benefit to the general public under the conditions set forth in these regulations if such general uses substantially relate to, or do not interfere with, university missions.

The purpose of these regulations is to establish procedures and reasonable controls for the use of university property by nonuniversity groups or individuals, university affiliates, university groups or individuals, or students, faculty, or staff who desire to use university property for personal, private, or nonuniversity group related activity.

Reasonable conditions may be imposed to regulate the timeliness of requests, to determine the appropriateness of space assigned, time of use, and to ensure the proper maintenance of the property.

Spring Quarter 2018

Spring 2018 enrollment was very similar to last year with 13 freshmen and 162 transfer students, compared to 7 freshmen and 166 transfer students for Spring 2017.

Fall Quarter 2018

By all measures, this has been a solid year for enrollment, with the second-largest number of applications received: 11,094 freshman admissions applications this year compared to 11,225 at the same time last year. Freshman confirmations are similar to last year at 3,390 for Fall 2018 compared to 3,388 for Fall 2017. Confirmed freshman students of color are up by 2.7% at 974 compared to 948 the same time last year. Despite the slight decrease in applications, our goal continues to consist of welcoming an incoming class similar in size (3,108), academic profile, and diversity as last year. So far, we are on track to achieve this.

Transfer applications are down by 10.5% at 2,134 compared to 2,383, a function of decreased community college enrollments. That said, we are pleased to report that confirmations are similar to last year at 1,140 for Fall 2018 compared to 1,150 for Fall 2017, as a result of increased recruitment efforts. Confirmed transfer students of color are up by 1.4% at 292 for Fall 2018 compared to 288 at the same time last year. We will continue to receive applications well into July so we anticipate that our transfer enrollment will likely resemble what we achieved last fall.

Efforts are underway to prevent melt by reaching out to confirmed freshman students who have not applied for housing to inquire about their plans and refer them to University Residences as warranted, addressing unusual financial circumstances through the Financial Aid Department, encouraging students to take the math placement exam and directing all incoming students to new student orientations: Transitions for transfer students in late July and Summerstart for freshman students throughout the month of August.
International Student Recruitment

We have had 11 freshman international students confirm this year as direct admits, compared to 7 at the same time last year. Transfer international student confirms total 30 compared to 26 last year. Admissions continues to collaborate with our colleagues from Extended Education and Study Group to encourage applications and enrollment of international students. In addition, Admissions recently participated in the Canadian Independent School Counselor Conference in Victoria, BC, and featured a Western table at the national college fair in Vancouver, BC, hosted by the National Association for College Admission Counseling.

Gearing Up for Fall 2019 and 2020

On Saturday, May 19, Admissions hosted Spring into Western, a program for high school juniors and sophomores. We were thrilled that interest was very strong, with nearly 1000 guests registered to participate in the day’s activities that included sessions on admissions, financial aid, the Honors Program, and each of the academic colleges.

Improved Communications withIncoming Students and Their Families

We are seeing increased numbers of students bringing family members with them to orientation programs. Recognizing the influential role that parents and other family members play regarding student success, New Student Services/Family Outreach is collaborating with University Communications to create two new orientation booklets: one for students and the other for family members, to use as a ready reference throughout the student’s first year at Western.

In addition, for the second year since inception, New Student Services/Family Outreach will partner with University Communications to create and distribute a calendar for the parents and other family members of new students to highlight important dates and information about campus resources. We are pleased to convey that the Council for Advancement & Support of Education awarded Western the Bronze Award as a Specialty Piece for the calendar we provided for 2017-2018.

For the 2018 WWU Alumni Weekend, we put a sharp focus on the alumni experience—the faculty, programs, and fellow alumni—who make Western unique. The WWU Alumni Association supported 12 athletic, academic, and departmental reunions: ATUS Reunion, CFPA Reunion, Football Reunion, Geography Reunion, Geology Reunion, Leadership Reunion, MBA Reunion, Modern and Classical Languages Reunion, Creative Writing Faculty and Alumni Reading, Women’s Basketball Gathering, Women’s Golf Gathering, and additional after-reunion parties and gatherings.

The weekend kicked off with a Presidential Welcome from President Sabah Randhawa with mimosas and continental breakfast. After remarks from President Randhawa, the college open houses began. Athletics hosted tours of Carver, a reception in the new Hall of Fame room for this year’s inductees, their families, and supporters, and a presentation of the awards in Carver Gym. Activities in Red Square included performances by AS groups, and Saturday evening capped off with a showing of Pixar’s “Coco” on Old Main Lawn.

IMPACT STORIES

ED RODDY ('84): A CHAMPION FOR WWU ATHLETES

When it comes to viking spirit, Ed Roddy walks the talk. Winner of the 2018 Larry “Go Vikings” Taylor Alumni Service Award, Roddy is a tireless champion and the ultimate booster. His involvement in Viking Athletics for the past three decades has been critical to the success of Western students and alumni. He’s a season ticket holder who rarely misses a men’s basketball game, who attends all pre-season and post-season events, and even travels for away games. During his years at Key Bank, he was instrumental in making Viking Night a success, from setting up tables to securing scholarships.

Last year at Viking Night, Roddy’s star was shining in the middle of the court. As an employee of WECU and influential Western supporter, Roddy contributed to WECU’s Support of Western. For their support, WECU has their name in the center of Carver Gym’s basketball court. “We developed interest at WECU by making sure the money went to scholarships.”

But Roddy’s involvement doesn’t end there. He sets up networking events for student-athletes, mentors WWU Men’s Basketball athletes, reviews resumes, and helps with job applications. “I called the Human Resources person at Peoples Bank and recommended an alumnus as a great person and dedicated employee, and they interviewed him and hired him.”

That student was Preston Vermeulen (‘06), an Information Technology Systems Administrator at Peoples Bank. “I met Ed in high school. He was our youth group leader and took us to games at Western.” Vermeulen attended Western and played basketball. Roddy was a WWU Men’s Basketball booster, always there for the team to offer support. After graduation, Roddy helped him get a job. “It took me six months to find a job, but then Ed called Peoples Bank.”

WWU alumnus Dan Young (‘13) played WWU Men’s Basketball from 2010-2012. Roddy encouraged him to study finance when Young was an undergraduate and helped him get a job at Key Bank. When Young faced major life decisions, Roddy was there with advice and a sympathetic ear.

Even after graduation, after his time at Key Bank, Roddy was there to help Young out. “When I decided to leave Key Bank, Ed helped me find another firm to go to. He’s one of those selfless people you don’t find very often. He has an ability to make connections and build trust with people, and that’s so important.” Young is now a financial advisor with Edward Jones.

Roddy says, “I enjoy helping people find jobs. Some athletes come to me concerned that they haven’t done anything but play sports, and I tell them “But look what you’ve learned—teamwork, time management, emotional resilience—all those soft skills that are ripe for employment.””

Rob Primozich’s (‘10) parents are Vikings, and so coming to WWU seemed natural to him. He played basketball at WWU from 2003-2005 and remembers Roddy fondly.
WHY WE DO WHAT WE DO...

IMPACT STORIES

"Ed was a fave—one of those who rooted us on. He was a great supporter of our team."

When Primozich left Western and returned for a master’s in business, Roddy was there for him, setting up lunches with local employers and helping him find a job for the summer.

“The thing about Roddy that’s important to understand is that he is the kind of person you don’t meet very often. He is so genuine. He’s a stand-up guy.” Primozich is now a partner alliances manager at PlayStation.

And who were the mentors to this exceptional person? Roddy’s favorite professors at Western were those who had been in the professional world and brought that real-world experience into the classroom. He follows that example and sets up job shadows for students with alumni, letting them see firsthand what the day-to-day of a particular career entails. “I don’t ask them ‘What do you want to be?’ I ask them ‘What do you picture yourself doing? What are you passionate about?’”

As a supporter of Western Athletics, Roddy brings his real-world advice and experience to young Vikings and sets them on a path of achievement and success.

ALUMNUS ESTABLISHES SCHOLARSHIP FOR WOMEN IN MIS

Management Information Systems is typically a male-dominated field, but a generous donor—attorney and WWU alumnus Ziad Youssef (‘94)—wants to see that change. In April, he established the Women in Management Information Systems Scholarship to support women studying MIS. “I am passionate about three things: literacy, technology, and justice.” This scholarship is a reflection of these passions, as well as Mr. Youssef’s interest in seeing women succeed. He is the owner of MyTrafficMan.

Communications and Marketing

Our skilled professionals worked on a wide range of online, print, social media, video and graphic design communications and marketing, which included:

- An event at Western’s Wilson Library attended by more than 250 people in response to acts of antisemitic vandalism led to media coverage on KIRO TV and this Bellingham Herald story, which was picked up by the Associated Press and ran regionally and nationally: [http://www.bellinghamherald.com/news/local/article208523549.html](http://www.bellinghamherald.com/news/local/article208523549.html).
  The research of Robin Kodner, assistant professor of Biology, on high-altitude algae-created watermelon snow was featured in this Skagit Valley Herald story: [https://www.goskagit.com/news/wwu-researcher-continues-watermelon-snow-project/article_2aecd2fe-5a5b-558d-b7df-fb10037d3b06.html](https://www.goskagit.com/news/wwu-researcher-continues-watermelon-snow-project/article_2aecd2fe-5a5b-558d-b7df-fb10037d3b06.html).
  The Bellingham Herald reported on the installation ceremony for the Arch of Healing and Reconciliation, at which President Sabah Randawa was the keynote speaker. See: [http://www.bellinghamherald.com/news/local/article209486804.html](http://www.bellinghamherald.com/news/local/article209486804.html).

- In publications, Editor Mary Gallagher just sent the Spring/Summer edition of Window magazine, which includes stories about wildfires and climate change, men’s resilience, the Changemaker Fellows, and the 2018 Alumni Award recipients, to more than 100,000 readers. Our magazine website includes more video content than ever. And we continued to see excellent reader response for our monthly Family Connection Newsletter, with open rates of about 25 percent.

- In marketing and social media, our office collaborated with staff across campus, helping to coordinate social media campaigns and interview Wellness experts for our Be Well video series. In addition, Kessa Volland, Marketing and Social Media Coordinator, took part in Brand Council meetings developing Western’s brand articulation, and participated on the university onboarding committee, which is taking an in-depth look at Western’s onboarding process and areas for improvement.

- In video and photography, our staff continued its emphasis on shorter video and expanding access via multiple social media and online channels to enhance viewership. Our office produced this video about the “Hello Fellow Human” portion of the installation ceremony for the Arch of Healing and Reconciliation. Work is also under way on an annual package of stories about summer research fieldwork by Western’s faculty and students that will also utilize the office’s photo and video talent.

- Graphic designers Chris Baker and Derek Bryson worked on a wide range of design projects with offices across campus, including fliers, posters, banners and online and social media design work. Some notable examples included: the President’s Report; Window Magazine; Athletics Hall of Fame Induction Ceremony program; Academic Advising Center promotional materials for workshops and labs; Veterans Services
sandwich boards; a refresh of the WWU Sculpture Collection guide; Viking Advisors class schedules; Bike Route map update; materials for the Annual Employee Recognition event; numerous event posters, and assistance with production of student publications Jeopardy and Occam’s Razor.

Community Relations

The Office of Community Relations amplifies community connections by connecting the community's needs with the resources and assets of Western. By providing a centralized connecting point for the community to access Western and its students and faculty, Community Relations builds partnerships that makes Western more accessible, benefiting both the university community and the people of Washington while enhancing the university's reputation.

Business to Academic Partnerships

Community Relations helps faculty and students bridge connections with the business community. These partnerships benefit academic curriculum, provide applied experience for students and build or expand partnerships with influential people who support Western.

The Director of Community Relations attends multiple events each month to network and seek connections with the business community. Two examples of many introductions made include Shuttle Systems and Defined Crowd. The founder and CEO of Shuttle Systems is seeking to work more closely with Western so he can create a pipeline for internships and jobs for graduates. Community Relations connected him with Health and Human Development professors Keith Russell and Gordon Chalmers along with Jenny Spurgin in Career Services. Conversations are underway to lay the groundwork of establishing a pathway for student internships and faculty partnerships for research purposes.

Defined Crowd is a company that provides voice activated AI software providers (Amazon Echo, Apple Suri, GM OnStar, etc.) with linguists and computational linguists who “teach” AI products multiple languages and dialects. He was unaware of Western’s exceptional programs and, until recently, only hired graduates from UW and well-known research-focused out of state schools. He is working with the Computer Science department and Career Services to establish a pathway for internships and employment.

Increasing Western's Presence in the Community Creates Opportunities, Builds Rapport

Community Relations plays an important role ensuring that Western is not just visible in the community, but recognized as a key partner and leader. The Director of Community Relations serves as a recognizable representative of Western in the community by actively serving on a dozen diverse boards and committees and representing Western and university leadership at multiple events. He also serves as a team member and contact to many community and business entities seeking connection to the university and represents Western as master of ceremonies at a variety of community events from Ferndale to Seattle.
Bellingham’s first ever *Bellinghamopoly* game will be released at the end of the summer 2018 by the Bellingham Regional Chamber of Commerce. Iconic businesses, parks and other locales are an important part of the game. As a major employer and historic part of the Bellingham community, Community Relations worked to ensure Western played an equally important role in the game. As a result, Old Main and the Viking Union will reside on the Boardwalk and Park Place squares. Western’s Sustainable Action Fund Fee will take the place of the Luxury Tax space. Additionally, one of the playing pieces will be a Viking helmet, and players could win money by drawing a WWU-themed Chance or Community Chest card. The game will be sold at local Woods Coffee shops, Village Books, Haggen and the WWU bookstore with proceeds of A.S. Bookstore sales going directly to WWU.

**Connections Increase Western’s Impact**

Community Relations serves as Western’s key community connector not only by being visible in the community, but by being a trusted WWU go-to resource. Connections can include a local retiree or small business owner to large statewide initiatives. Introductions lead to conversations, which lead to partnerships that benefit Western and the state the university serves.

Westerns involvement with the region’s Cascadia Innovation Corridor continues to develop. Representatives from University of Victoria, Simon Fraser University, Royal Roads University, Microsoft, the Washington State Department of Commerce, Governor’s Office, B.C. Premier’s office, and others gathered on campus to discuss university-to-university partnerships that benefit the Cascadia Innovation Corridor. Additionally, former Governor Chris Gregoire recently requested to meet with staff on campus to discuss the university’s participation in the corridor. The growing leadership role Western is taking in this regional initiative allows the university to not only be more visible, but also best serve our mission to make a measurable impact in building a stronger Washington.

Bellingham was the third city in the United States to join Sister Cities International and is hosting a three-day summit from September 4-6 to celebrate the 60th anniversary of Sister City partnership with Tateyama, Japan. Western is proud to serve as a primary sponsor and partner of this exciting event that invites the mayors and/or leaders of all of Bellingham’s seven sister cities to our community. Those cities are Punta Arenas, Chile; Vaasa, Finland; Tsetserleg, Mongolia; Cheongju, Korea; Nakhodka, Russia; Tateyama, Japan; and Port Stephens, Australia. Western is hosting the first day of the summit where guests will be welcomed to Bellingham, tour campus and join Bellingham Mayor Kelli Linville in discussions about common challenges and successes. Topics discussed will include international issues like education, shared economies, housing, and energy with a goal of establishing long-term partnerships and exchanges with businesses and educational institutions between sister cities. Western faculty and staff from Extended Education, Leadership Institute, Anthropology, English, Modern and Classical Languages, and Business and Sustainability are participating in the planning and execution of this historic event spearheaded by Community Relations. The second and third day of the summit are sponsored by Saturna Capital and the local Sister Cities program and include tours of Whatcom County farms, businesses, city and port offices, a bus trip to Artist Point at Mt. Baker, and a visit to the Peace Arch. Once the event concludes, a Western student, assigned by Anthropology professor James Loucky, will spend six months working with Bellingham’s Sister Cities program to help ensure the goals of establishing long-term partnerships are met.
Two local community members have a goal of opening a café that actively hires people with disabilities as a way to provide them with a way to lead independent lives and build self-worth. As former café owners in Pullman, WA, these two business professionals need some guidance on their business plan and assistance with tackling the daunting process of opening a new business in a competitive industry. They reached out to Community Relations who connected them with Aric Mayer and Lucas Senger in Western’s MBA program who met with them, provided assistance, and talked about the possibility of paring them with a group of students in Spring 2019. This not only provides an opportunity for Western to serve the community and contribute to local economic development, but students will receive a unique real-world opportunity to learn.

WebTech’s workload continued apace at the increased rate from winter quarter, our second two-month period in a row logging more than 130 new issues to fix. We dug through our backlog of work resolving 178 issues. This is good news even though we had a slight setback last report, the team is continuing to resolve more issues than are created. The continued support of our temporary developer has allowed us to handle the new normal workload and take on longer term projects.

Compliance work around web accessibility afforded us the opportunity to improve the websites for Shannon Point Marine Center, our Attorney General’s Office, the Institute for Global Engagement, as well as providing a new community focused look for the Small Business Development Center. A consistent strategy we have been using to enhance our web accessibility in addition to technical fixes has been to sunset legacy services and websites if a better alternative exists. Working with partners across campus we are undergoing extensive cleanup efforts and have removed approximately 80 legacy sites and applications that were no longer being used but taking up space on servers. This has been a great morale boost to staff in the office.

We are frenetically working on a set of new tools that will provide us a pathway for upgrading and redesigning the main university website and provide continued brand consistency across all of the digital platforms Western engages. We are excited for that work to begin appearing in new projects.
We trialed a new project-based workflow in early April, which was very successful. The two large green spikes correspond to that experiment. We plan to do more of that approach as we restructure workflows to allow for it.

**Washington Campus Compact**

1) **Pen to Paper Writing Retreat.** Washington Campus Compact will host the *Pen to Paper* writing retreat on August 26-28, 2018 at Dumas Bay Centre in Federal Way, Washington. This retreat is open to faculty, administrators, students, and community partners interested in publishing in the areas of service-learning or civic engagement. Journal editors will provide feedback to participants. There will be two tracks:

   a. Ready to Publish - for those who have a completed/nearly completed manuscript. These individuals are attending the Retreat to receive feedback from journal
editors and to learn more about the various avenues available to publish their work.

b. Ready to Write - for those whose research is complete/nearly complete and have a writing plan, but who have not yet begun the writing process. These individuals are attending the Retreat to fully plan their writing strategy and receive guidance as they begin the writing process.

2) **Food Security Institute.** Washington Campus Compact has been planning a Food Security Institute scheduled for October 11-12, 2018 in Pullman, WA. Faculty, administrators, and community partners interested in exploring the interconnectedness of food security issues in our communities and society are invited to submit a proposal to present. Food security challenges are complex, rooted in inequalities, and transcend the organizations established to address them. They cross all boundaries, including those between campus and community, and call out for a more collaborative approach and to work more intentionally to redress barriers to equality.

3) **Strategic Planning.** Washington Campus Compact will begin a strategic planning process to identify priorities for our state in the civic engagement field. Campus and community representatives will be invited to share ideas to address critical educational and community issues that could be addressed by strengthening civic engagement efforts and building stronger campus/community partnerships.
