To the Western Washington University Board of Trustees,

Here is our Associated Students report as of November 29th, 2022:

- The Executive Board appointed Boliy Waathan as the new AS Vice President for Diversity.
- The Student Senate appointed Quincy Ingalls as their Vice Chair.
- The Student Senate plans to appoint their new CFPA Student Senator on November 30th.
- About 163 students completed our Legislative Priorities Survey, which informs what will be on our legislative agenda for Western Lobby Day.
- The AS Legislative Affairs Council submitted a draft agenda for Western Lobby Day to the Executive Board and Student Senate.
- The Executive Board and Student Senate are working on their Mission, Vision, and Values statement(s) for the rest of the academic year.
- The Student Senate continues to work on student outreach and diversifying curriculum.
- We as a student government are re-evaluating how we can best support the BSO Demands.
- We continue to support Students for a Self-Operated Dining System and their goals.
- We have been working on supporting students with the recent increase in hate at WWU, across the nation, and around the world.

After the several bias incidents that have occurred on campus, we are looking into forming an AS student safety and wellbeing task force or working group. They would work not only on supporting students that have been affected by hate, but also on preventative measures that encourage advocacy, allyship, and reporting hate. We hope WWU as a whole - students, staff, faculty, and administration - stands in solidarity with marginalized students. It is everyone’s responsibility to speak up against hate.

Thank you for your time,

Sargun Handa | She/her/hers
AS President | Associated Students of WWU
